Graphically Speaking Lisa Buchanan, 2002. This book breaks down the client-designer dialogue into something everyone can understand. Starting with an insightful introductory section of expert commentary on how visual and non-visual people can work best together, the main section of this book is divided using an alphabetical progression of buzzwords. Each word section progresses from components of a design style like colour combinations and fonts to examples of design style such as brochures and logos. The benefit of this book is that it's three books in one: a client communication guide, a designer reference, and a swipefile of different types of logos and page design projects. Absolutely indispensable. *American Book Publishing Record*, 2002.

Library Journal, 2002. Includes beginning Sept 15 1954 and on the 15th of each month Sept-May a special section. School library journal ISSN 0000-0035 called Junior Libraries 1954-May 1961. Also issued separately.
