Grassroots Election In China Chinese Edition

Anthony S. Fauci

Grassroots Election In China Chinese Edition:

Grassroots Elections in China Kevin O'Brien, Suisheng Zhao, 2014-07-22 Twenty years after the launch of village elections the time is ripe to assess the progress and impact of China's most notable political reform Where have elections been conducted well and where have they been conducted poorly How have procedures changed over the years and have elections truly transformed how power is exercised in the countryside What methods are researchers employing to study elections and how have scholars from different disciplines contributed to our knowledge of grassroots politics in China This book carefully examines the implementation and effects of China's village township and people's congress elections both in terms of democratizing the polity and spurring other changes in state society relations The chapters in this book have been published across several issues of the Journal of Contemporary China *Grass-Roots Democracy in India and China* Manoranjan Mohanty, 2007-01-12 In both India and China economic reforms have generated challenges for local institutions This book studies the political experiences in India and China from an interdisciplinary perspective It examines the process of democratisation highlighting the demands for participation and the power structures interjecting them **Inklings of Democracy in China** Suzanne Ogden, 2020-05-11 Since 1979 China's leaders have introduced economic and political reforms that have lessened the state's hold over the lives of ordinary citizens By examining the growth in individual rights the public sphere democratic processes and pluralization the author seeks to answer questions concerning the relevance of liberal democratic ideas for China and the relationship between a democratic political culture and a democratic political system The author also looks at the contradictory impulses and negative consequences for democracy generated by economic liberalism Unresolved issues concerning the relationships among culture democracy and socioeconomic development are at the heart of the analysis Nonideological criteria are used to assess the success of the Chinese approach to building a fair just and decent society Chinese Politics in the Hu Jintao Era: New Leaders, New Challenges Willy Lam, 2016-07-01 Drawing on hundreds of interviews with top Chinese officials parliamentarians scholars and businessmen Willy Lam a renowned journalist and writer on Chinese affairs presents a first hand multi dimensional account of twenty first century China and the impact of fourth generation leaders including President Hu Jintao and Premier Wen Jiabao Lam goes behind the glitzy facade of nouveau riche Beijing and Shanghai to examine how the Hu leadership has tried to extend the Communist Party's mandate of heaven by tackling an array of daunting problems the weakening legitimacy of the Party's leadership restive peasants angry workers political stagnation over the lack of reform foreign relations difficulties unreliable energy supplies resurgent nationalism and the increasingly dubious Chinese model of development The author assesses possible contributions that the new classes of private businessmen professionals and intellectuals as well as new ideas such as nationalism globalization and federalism will make to economic prosperity and political liberalization The book also includes a chapter on foreign policy which contains an insightful account of Beijing's evolving and sometimes difficult relations with the United States Europe

Japan and other major countries and blocs as well as the role of the People's Liberation Army

Regeneration of Peasants Shukai Zhao, 2017-02-13 This book focuses on analyzing the inter relationship between Chinese peasants and the reform and it tries to understand the conditions of peasants during the course of the Chinese social transition This book argues that Chinese peasants are the most important force that keeps the reform going More importantly this book argues that this force comes from the peasants pursuit of their own social political and economic interest not some spontaneous demand for reform itself This inherent relationship between the peasants and the reform is summarized into five major relationships the inter relationship between peasants and the central government between peasants and local government between peasants and rural democratization between peasants and social constructions and between peasants and local officials These five inter relationships are the prime mechanism for the interaction between Chinese peasants and the reform and these forms the basis for understanding and analyzing the inter relationship between the state and peasants

Electoral Justice and Political Culture Dai zhicheng, 2021-12-15 The election process reflects the essence of the electoral system The justice of the electoral process can best reflect whether the electoral system is legitimate and democratic The democratic and legal shortcomings of China's electoral system can be solved by rationalizing and democratizing the electoral process which is consistent with the realization of justice under the electoral process In this book procedural justice is combined with the electoral process to find the conditions and elements needed to achieve more justice in elections The electoral system is still based on the political will of the political party to rule and the electoral system itself has serious legislative problems which shows that the foundation of China's electoral system has problems Then China's electoral system cannot truly represent the political voices and political interests of the people in the implementation and at the same time cannot reflect the fairness of the election in the electoral procedure and the determination of the election results The People's Congress system and the Political Consultation system simply cannot elect the right representatives who truly represent the interests of the people The elected government and state power organs are separated from the people's political status political interests and development interests in the operation of their duties and the exercise of power By analyzing the problems in China's electoral system and election procedures the book concludes the conditions for the realization of more justice rationalization and democratization of China's electoral system and election procedures through procedural justice The spiritual connotation of procedural justice under the electoral system and election procedures are combined with the traditional Chinese democratic political culture to construct an electoral political culture adapted to the contemporary Chinese political environment advancing the development of procedural justice in China's electoral system to realize the rationality legitimacy and democracy of elections

Tax Reform in Rural China Hiroki Takeuchi, 2014-08-11 How does China maintain authoritarian rule while it is committed to market oriented economic reforms This book analyzes this puzzle by offering a systematic analysis of the central local governmental relationship in rural China focusing on rural taxation and

political participation Drawing on in depth interviews with Chinese local officials and villagers and combining them with game theoretic analyses it argues that the central government uses local governments as a target of blame for the problems that the central government has actually created The most recent rural tax reforms which began in 2000 were a conscious trade off between fiscal crises and rural instability For the central government local fiscal crises and the lack of public goods in agricultural areas were less serious concerns than the heavy financial burdens imposed on farmers and the rural unrest that the predatory extractive behavior of local governments had generated in the 1990s which threatened both economic reforms and authoritarian rule New Dynamics in East Asian Politics Zhiqun Zhu,2012-02-02 Using a comparative and thematic approach this textbook looks at key aspects of the new dynamics in East Asian politics security political economy and society **China's Authoritarian Path to Development** Liang Tang,2017-06-14 This book examines the various stages of China s development in the economic social and political fields relating theories and models of development to what is actually occurring in China and discussing how China s development is likely to progress going forward It argues that China s modernization hitherto can be characterized as authoritarian development a fusion of mixed economic institutions of varying types of ownership with social stability and political cohesiveness and that the present phase where more emphasis is being given to social issues is likely to lead on to a new phase where a more mature civil society and a more extensive middle class are likely to look for greater democratization It presents an in depth analysis of China s changing social structure and civil society explores the forces for and processes of democratization and assesses the prospects for further democratization in the light of changing social structures **China's Economic Future** Joint Economic Committee Congress of the United States,2016-12-05 This is the latest Joint Economic Committee volume on the Chinese economy With the current state of US China relations and Hong Kong s accession in 1997 the study should provide policy makers in the USA with a useful tool in guiding economic policy toward China **China's Economic Future** ,1996 Democratic Transitions Sujian Guo,Gary A Stradiotto,2014-04-03 Democratic transitions have occurred in many countries in various regions across the globe such as Southern Europe Latin America Africa East and Southeast Asia Eastern Europe and the Middle East and these nations have undergone simultaneously political economic and social transformations Yet the patterns and characteristics of transitions have varied significantly and different modes of transition have resulted in different outcomes This book offers cross national comparisons of democratic transition since the turn of the twentieth century and asks what makes democracies succeed or fail In doing so it explores the influence the mode of transition has on the longevity or durability of the democracy by theoretically examining and quantitatively testing this relationship The authors argue that the mode of transition directly impacts the success and failure of democracy and suggest that cooperative transitions where opposition groups work together with incumbent elites to peacefully transition the state result in democracies that last longer and are associated with higher measures of democratic quality Based on a cross national dataset of all democratic transitioning states since

1900 this book will be of great interest to students and scholars of international politics comparative politics and democracy and democratization studies

The Failure of China's Democratic Reforms Zaijun Yuan, 2011-12-08 In its propaganda the Chinese Communist Party does not deny the value of democracy but it insists that democracy in China can be only socialist democracy with Chinese characteristics The most essential nature of such democracy is that it is under the single party system and it excludes multi party politics and competitive elections In recent years Chinese democracy has won more support because of achievements the party has made in developing economy This raises a question does this efficient authoritarian political system in China even if it is not democratic deserve applause because it can facilitate economic development The party also insists that it is democratic But is the party's theory of democracy compatible with western democracy Since 1998 the party has organized some political reforms such as direct elections for township executives direct elections for township party secretaries township party congress reform and deliberative democracy experiments while maintaining single party politics In the party's propaganda some of these reforms have become party achievements in improving socialist democracy with Chinese characteristics In addition to these four kinds of party organized reforms another reform originated from the grassroots the participation of independent candidates in a few local people's congress elections This book examines these five local political reforms It demonstrates that the four reforms instigated and organized by the party were tightly controlled and manipulated by the party Although some reform measures may possibly liberalize parts of China's political mechanism it is highly unlikely that the four reforms will eventually lead to political democratization in China In the fifth reform which was motivated from outside the bureaucratic system the party took drastic measures to repress the political participation of grassroots power As a result nearly all independent candidates in the local people's congress elections failed in their attempts to gain office The prospects for this reform are also poor The book argues that all five reforms have failed and that none will lead to China's democratization in the near future The book concludes that the party's authoritarian regime in China is by nature anti democratic and that so called socialist democracy with Chinese characteristics is not democratic

China's Reform In Global Perspective John Wong, Zhiyue Bo, 2010-08-02 This book provides a fascinating perspective of the experiences of China's reform in the past three decades by focusing on China's interaction with and learning from the external world in her unprecedented efforts to reform and open up After three introductory chapters on broad scope of reform in the political economic and social realms this book deals with lessons from the Eastern Bloc China's reform in East Asian context and China and the developed world The book concludes with two chapters looking to the future of China's political and economic development In the existing literature of China's reform experience this book is unique in perspective topic selection and in depth analyses With contributions from a group of prominent scholars in the field of China studies such as John Wong Zheng Yongnian Thomas P Bernstein Dorothy J Solinger and Bo Zhiyue it will be of immense value to anyone who is interested in China

A New Deal for China's Workers?

Cynthia Estlund, 2017-01-02 China's leaders aspire to the prosperity, political legitimacy and stability that flowed from America's New Deal but they are irrevocably opposed to the independent trade unions and mass mobilization that brought it about. Cynthia Estlund's crisp comparative analysis makes China's labor unrest and reform legible to Western readers.

Tamed Village "Democracy" Guohui Wang, 2014-07-08 Wang's book offers an empirically rich and conceptually nuanced analysis of how local state agents maintain control over village self governance in China. His careful analysis of primary documents enables him to explicate the formal mechanisms used by members of the local state to influence village affairs. Meanwhile his rigorous and fascinating ethnographic data enable him to elucidate the manifold ways in which informal clientelist ties between local state officials and village elites permit the former to exert control. Overall this excellent book powerfully demonstrates the need for scholars to go beyond attention to election processes when evaluating what village democracy means in a Chinese context. It is a must read for all serious scholars of Chinese politics and society. Rachel Murphy, University of Oxford. Guohui Wang's highly original in depth case research vividly reveals the dynamics of contemporary Chinese village politics. By combining abundant empirical data with close observation as an insider, his book illustrates the processes and consequences of transplanting democracy into rural Chinese society. Particularly for those in the West who are keen on understanding the ongoing transformation of rural China, this book is a rich and revealing source. Shukai Zhao, Development Research Center of the State Council, P.R. China.

China's Political Development Kenneth G. Lieberthal, Cheng Li, Yu Keping, 2014-06-04 China's path to political reform over the last three decades has been slow but discourse among Chinese political scientists continues to be vigorous and forward thinking. China's Political Development offers a unique look into the country's evolving political process by combining chapters authored by twelve prominent Chinese political scientists with an extensive commentary on each chapter by an American scholar of the Chinese political system. Each chapter focuses on a major aspect of the development of the Chinese Party state encompassing the changing relations among its constituent parts as well as its evolving approaches toward economic growth, civil society, grassroots elections and the intertwined problems of supervision and corruption. Together these analyses highlight the history, strategy, policies and implementation of governance reforms since 1978 and the authors' recommendations for future changes. This extensive work provides the deep background necessary to understand the sociopolitical context and intellectual currents behind the reform agenda announced at the landmark Third Plenum in 2013. Shedding light through contrasting perspectives, the book provides an overview of the efforts China has directed toward developing good governance, the challenges it faces and its future direction.

Democratizing China's Political Imaginaries Rongxin Li, 2024-06-12 This book offers a meticulous empirical examination of Chinese democracy and its myriad discourses. Delving into the intricate workings of Chinese democracy, the author explores how the Chinese Communist Party employs democratic principles, how intellectuals grapple with the concept and how the populace perceives and engages with democracy. In transcending mere methodological

nationalism this narrative extends to the global stage offering insights into democratic evolution beyond Western paradigms by exploring resonates particularly with developing and post colonial countries offering a fresh perspective on the delicate balance between state capacity social order and the democratization process While the trajectory of democracy in China remains uncertain these empirically grounded analyses provide a pragmatic lens through which to contemplate the future of Chinese political dynamics

Exporting Virtue? Pitman B. Potter, 2021-02-01 China's rise to prosperity on the international stage has been accompanied by increased tensions with international standards of law and governance *Exporting Virtue* examines human rights as an example of China's international assertiveness and considers the implications of internationalizing PRC human rights policy and practice Pitman B Potter suggests that in the absence of clear and enforceable global human rights standards China has been free to pursue its political interests and policy initiatives Couched in terms of virtue but manifested as authoritarianism China's international human rights activism invites scholars and policy makers around the world to engage critically with the issue Drawing on both Chinese and English language sources *Exporting Virtue* investigates the challenges that China's human rights orthodoxy poses to international norms and institutions offering normative and institutional analysis and providing suggestions for policy response

Varieties of Governance in China Jie Lu, 2015 *Varieties of Governance in China* examines the origins of the varying institutional foundations of rural China's decentralized governance explains the performance and change of the formal and informal institutions that uphold rural China's governance and documents the effects of rural urban migration on institutional change and local governance in Chinese villages

Grassroots Election In China Chinese Edition Introduction

In today's digital age, the availability of Grassroots Election In China Chinese Edition books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Grassroots Election In China Chinese Edition books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Grassroots Election In China Chinese Edition books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Grassroots Election In China Chinese Edition versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Grassroots Election In China Chinese Edition books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Grassroots Election In China Chinese Edition books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Grassroots Election In China Chinese Edition books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and

historical documents. In conclusion, Grassroots Election In China Chinese Edition books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Grassroots Election In China Chinese Edition books and manuals for download and embark on your journey of knowledge?

FAQs About Grassroots Election In China Chinese Edition Books

1. Where can I buy Grassroots Election In China Chinese Edition books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
