Developing and Validating Test Items Thomas M. Haladyna, Michael C. Rodriguez, 2013-07-18 Since test items are

the building blocks of any test learning how to develop and validate test items has always been critical to the teaching learning process As they grow in importance and use testing programs increasingly supplement the use of selected response multiple choice items with constructed response formats This trend is expected to continue As a result a new item writing book is needed one that provides comprehensive coverage of both types of items and of the validity theory underlying them This book is an outgrowth of the author s previous book *Developing and Validating Multiple Choice Test Items* 3e Haladyna 2004 That book achieved distinction as the leading source of guidance on creating and validating selected response test items Like its predecessor the content of this new book is based on both an extensive review of the literature and on its author s long experience in the testing field It is very timely in this era of burgeoning testing programs especially when these items are delivered in a computer based environment Key features include Comprehensive and Flexible No other book so thoroughly covers the field of test item development and its various applications Focus on Validity Validity the most important consideration in testing is stressed throughout and is based on the Standards for Educational and Psychological Testing currently under revision by AERA APA and NCME Illustrative Examples The book presents various selected and constructed response formats and uses many examples to illustrate correct and incorrect ways of writing items Strategies for training item writers and developing large numbers of items using algorithms and other item generating methods are also presented Based on Theory and Research A comprehensive review and synthesis of existing research runs throughout the book and complements the expertise of its authors

Integrating Timing Considerations to Improve Testing Practices
Melissa J. Margolis, Richard A. Feinberg, 2020-06-03

Integrating Timing Considerations to Improve Testing Practices synthesizes a wealth of theory and research on time issues in assessment into actionable advice for test development administration and scoring One of the major advantages of computer based testing is the capability to passively record test taking metadata including how examinees use time and how time affects testing outcomes This has opened many questions for testing administrators Is there a trade off between speed and accuracy in test taking What considerations should influence equitable decisions about extended time accommodations How can test administrators use timing data to balance the costs and resulting validity of tests administered at commercial testing centers In this comprehensive volume experts in the field discuss the impact of timing considerations constraints and policies on valid score interpretations administrative accommodations test construction and examinees experiences and behaviors and how to implement the findings into practice These 12 chapters provide invaluable resources for testing professionals to better understand the inextricable links between effective time allocation and the purposes of high stakes testing The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Official Airline Guide, 1989-07 **Legislating for Risk and Precaution** Robert Black, John Moloney, Andrew Graffham, 2025-07-21 This book aims to demystify the law for scientists and instructing officials by exploring the science and

legal concepts of risk and precaution for national legislation to facilitate safe trade in agricultural products in compliance with international trade rules The book is not meant to supplant the many authoritative titles on legislative drafting but provide some practical exercises on instructions and drafting for this area of law The book also includes some important factors in legal reform such as the audience for and access to legislation It therefore has the potential to be a valuable resource for coordinated training of instructors and drafters by helping to secure a robust two way dialogue between them

Achieving Teaching Excellence: Developing Your TEF Profile and Beyond Peter Wolstencroft, Leanne De Main, Paul Cashian, 2020-11-12 What does teaching excellence within Further and Higher Education look like This book takes the Teaching Excellence Framework TEF as its starting point Each chapter identifies one specific aspect of the TEF and with the help of case studies guides the reader through innovative teaching strategies and how to overcome challenges that range from digital learning to feedback and assessment Extensive practical suggestions are offered for the reader to use in their own teaching all underpinned by a sound theoretical base Responsive to current debate topics addressed include Widening Participation Internationalisation Gaming and simulation Student employability The entire volume is cross referenced to both the TEF and the National Student Survey NSS meaning readers can easily contextualise what they have read With higher investment in teaching and learning and the changing demands and expectations of students this timely and practical book will help you successfully navigate your teaching career within Higher Education Peter Wolstencroft is a Programme Leader for Postgraduate Courses at Liverpool John Moores University His work and research has a focus on the student experience and improving teaching and learning Leanne de Main is Associate Dean Academic at De Montfort University having held previous roles at other Universities in Academic Development and Quality Her research centres on widening participation and inclusive curricula with a key focus on access to Higher Education for students from disadvantaged backgrounds Paul Cashian is Institutional lead for Assessment for the Coventry University Group having previously been Associate Dean in the University's Faculty of Business and Law He is Principal Fellow of the HEA and has a wide experience of leading innovative change programmes seeking to enhance the student experience
