

The Creation of the Greek Universe (Day 1)

Greek Mythology

What are myths about? And if they aren't real, why do we study them in class?

A myth is a story about gods, heroes, and events that people use to explain their culture, history, beliefs, and the world around them. For the Ancient Greeks, their gods and goddesses were immortal, powerful beings who took care and helped the people. They humanize feelings, emotions, and ideas generally (as if these "feelings"). They don't largely on Mount Olympus (a tall mountain in northern Greece). The Greek gods controlled the entire universe. They usually smother came down from their realm, either to help someone or to punish an individual.

The Greek myths teach us a version of history, like how the story of the Minotaur is about the Trojan War. Myths also teach us about the culture, the values, and what they believe is right and wrong. These myths explain natural phenomena. They are a way to explain how the world works around them. For example, the Greeks explained that the sun was changed through the story of Demeter, the goddess of fertility. Her goddess Demeter had a daughter named Persephone who brought her back from the underworld. Persephone is a great ruler of the underworld. She had to live with her husband for the year in the underworld. They would return to Mount Olympus for the other half of the year. Demeter, as the goddess of fertility, is a great thing on Earth as gods. During the year she was happy and with Persephone. If however, half the year was in the underworld and bright and green. During the other half of the year, when Persephone and Demeter are apart, it was dark and winter.

Of course, modern science has disproved the Greek myths, and that's why the world has changed without explaining the disappearance of the goddess Demeter. But this does not make them less real for the Ancient Greeks.

Read the creation myth below to understand how the earth was created and where the gods and goddesses lived there.

Greek Creation Myth

Why does Uranus lock away his children?

Once, the Earth, came out of darkness so long ago that nobody knows when or how. Earth was young and lonesome, for nothing lived on her yet. Above her rose Uranus, the Sky, dark and blue, set all over with sparkling stars. He was magnificent to behold, and young Earth looked up at him and fell in love with his stars. Soon Earth and Uranus gave birth to the Giants, the Titans, and Earth became a Mother Earth. All her children loved their name and beauty, mother and loved their mighty father, Uranus, lord of the universe. ^{How does Earth feel?}

The Titans were the first children of Mother Earth. They were the first gods and were taller than the mountains she created to serve them as thrones. Both of their parents, the Earth
