## **Green Economics Confronting The Ecological Crisis:**

**Green Economics** Robin Hahnel, 2014-12-18 This book's pluralistic non dogmatic and committed investigation of the values of ecological sustainability economic justice and human dignity provides balanced analysis of environmental problems and their potential solutions *Karl Marx's Social and Political Thought* Bob Jessop, Russell Wheatley, 1999 **Principles of Macroeconomics** Howard J. Sherman, Michael A. Meeropol, 2015-03-10 Principles of Macroeconomics by Howard J Sherman and Michael A Meeropol differs from other texts in that this book stresses far more the inherent instability of the macro economy The details of the business cycle come early and are integrated throughout the core of usual macro topics C I G X The book puts inflation into its proper perspective by recognising that unemployment is the much greater threat to the economic well being of the vast majority of the people Instead unemployment and its human toll are given far greater emphasis than other texts The Keynesian model is fully developed so is the statistical analysis of Wesley Mitchell The neoclassical model is covered in both its historical evolution and in its implications for current policy debates Finally there is strong coverage of the Euro zone crisis and its linkages to the United States *Uncertainties and Risk Assessment in Trade Relations* Ojo, Marianne, 2017-11-30 Country's affairs are greatly impacted by shifts in government thus the availability of research on current happenings within governmental policy and relations is imperative to keep citizens informed *Uncertainties and Risk Assessment in Trade Relations* presents an innovative examination of the ambiguities of foreign importing and exporting and its impact on governmental aspects such as global relations and financial stability Featuring coverage on a range of topics including border adjustment tax reforms and liquidity regulation this publication is targeted towards academicians researchers and students interested in the recent happenings and opinions of international trade

The New Systems Reader James Gustave Speth, Kathleen Courrier, 2020-10-19 The recognition is growing truly addressing the problems of the 21st century requires going beyond small tweaks and modest reforms to business as usual it requires changing the system But what does this mean And what would it entail The New Systems Reader highlights some of the most thoughtful substantive and promising answers to these questions drawing on the work and ideas of some of the world's key thinkers and activists on systemic change Amid the failure of traditional politics and policies to address our fundamental challenges an increasing number of thoughtful proposals and real world models suggest new possibilities this book convenes an essential conversation about the future we want *Macroeconomics of Climate Change in a Dualistic Economy* Sevil Acar, Ebru Voyvoda, Erinc Yeldan, 2018-01-25 Macroeconomics of Climate Change in a Dualistic Economy A Regional General Equilibrium Analysis generates significant genuinely novel insights about dual economies and sustainable economic growth These insights are generalizable and applicable worldwide The authors overcome existing limitations in general equilibrium modeling By concentrating on tensions between green growth and dualism they consider the global efforts against climate change and opposition by specific countries based on economic development needs Using Turkey as

their primary example they address these two most discussed and difficult issues related to policy setting blazing a path for those seeking an applied economic research framework to study such economic considerations Couples a CGE climate change mitigation policy analysis with a dual economy approach Presents methods to model and assess policy instruments for mitigating climate change Provides data sets and models on a freely accessible companion website Offers a path for those seeking an applied economic research framework to study economic considerations

*Hidden Interests in Credit and Finance* James B. Greenberg, Thomas K. Park, 2017-09-20 In this book James B Greenberg and Thomas K Park take an anthropological approach to the economic history of the past one thousand years and define credit as a potentially transformative force involving inequalities Traveling through the Mediterranean and Europe from the medieval period to the modern day Greenberg and Park reorient financial history and position social capital and ethical thought at its center They examine the multicultural origins of credit and finance from banking to credit cards and predatory lending to the collapse of global credit markets in 2007 2008 This book is recommended for scholars of anthropology history economics religion and sociology

*Finance and the Macroeconomics of Environmental Policies* P. Arestis, M. Sawyer, 2015-01-29 This volume examines current and previous environmental policies and suggests alternative strategies for the future Addressing resource depletion and climate change are pressing priorities for modern economies Planning energy infrastructure projects is complicated by uncertainty as such clear government policies have a crucial role to play

**Alternatives to Capitalism** Robin Hahnel, Erik Olin Wright, 2016-05-24 What would a viable free and democratic society look like Poverty exploitation instability hierarchy subordination environmental exhaustion radical inequalities of wealth and power it is not difficult to list capitalism s myriad injustices But is there a preferable and workable alternative Alternatives to Capitalism Proposals for a Democratic Economy presents a debate between two such possibilities Robin Hahnel s participatory economics and Erik Olin Wright s real utopian socialism It is a detailed and rewarding discussion that illuminates a range of issues and dilemmas of crucial importance to any serious effort to build a better world

*The ABCs of Political Economy* Robin Hahnel, 2014-11-20 This revised edition of ABCs is a lively and accessible introduction to modern political economy Informed by the work of Marx Veblen Kalecki Robinson Minsky and other great political economists Robin Hahnel provides the essential tools needed to understand economic issues today Dispelling myths about financial liberalisation fiscal austerity globalisation and free markets ABCs offers a critical perspective on our present system and outlines clear alternatives for the future This second edition applies the analytical tools developed to help readers understand the origins of the financial crisis of 2007 the ensuing Great Recession and why government policies in Europe and North America over the past six years have failed to improve matters for the majority of their citizens The second edition also helps explain what is causing climate change and what will be required if it is to be resolved effectively and fairly

**After Occupy** Tom Malleon, 2014-04-04 These days it is easy to be cynical about democracy Even though there are more democratic societies now 119 and counting than ever before

skeptics can point to low turnouts in national elections the degree to which money corrupts the process and the difficulties of mass participation in complex systems as just a few reasons why the system is flawed The Occupy movement in 2011 proved that there is an emphatic dissatisfaction with the current state of affairs particularly with the economy but ultimately it failed to produce any coherent vision for social change So what should progressives be working toward What should the economic vision be for the 21st century After Occupy boldly argues that democracy should not just be a feature of political institutions but of economic institutions as well In fact despite the importance of the economy in democratic societies there is very little about it that is democratic Questioning whether the lack of democracy in the economy might be unjust Tom Malleson scrutinizes workplaces the market and financial and investment institutions to consider the pros and cons of democratizing each He considers examples of successful efforts toward economic democracy enacted across the globe from worker cooperatives in Spain to credit unions and participatory budgeting measures in Brazil and questions the feasibility of expanding each The book offers the first comprehensive and radical vision for democracy in the economy but it is far from utopian Ultimately After Occupy offers possibility demonstrating in a remarkably tangible way that when political democracy evolves to include economic democracy our societies will have a chance of meaningful equality for all *Proceedings of The 5th MAC 2015* group of authors,2015-10-14 The 5th Multidisciplinary Academic Conference in Prague 2015 Czech Republic The 5th MAC 2015 The Routledge Handbook of Heterodox Economics Tae-Hee Jo,Lynne Chester,Carlo D'Ippoliti,2017-07-28 The Routledge Handbook of Heterodox Economics presents a comprehensive overview of the latest work on economic theory and policy from a pluralistic heterodox perspective Contributions throughout the Handbook explore different theoretical perspectives including Marxian radical political economics Post Keynesian Sraffian economics institutionalist evolutionary economics feminist economics social economics Regulation theory the Social Structure of Accumulation approach and ecological economics They explain the structural properties and dynamics of capitalism as well as propose economic and social policies for the benefit of the majority of the population This book aims firstly to provide realistic and coherent theoretical frameworks to understand the capitalist economy in a constructive and forward looking manner Secondly it delineates the future directions as well as the current state of heterodox economics and then provides both heat and light on controversial issues drawing out the commonalities and differences among different heterodox economic approaches The volume also envisions transformative economic and social policies for the majority of the population and explains why economics is and should be treated as a social science This Handbook will be of compelling interest to those including students who wish to learn about alternative economic theories and policies that are rarely found in conventional economics textbooks or discussed in the mainstream media and to critical economists and other social scientists who are concerned with analyzing pressing socio economic issues **Levers of Power** Michael Schwartz,Tarun Banerjee,Kevin A. Young,2020-07-07 It s no secret that the 1% the business elite that commands the largest corporations and

the connected network of public and private institutions exercise enormous control over U S government While this control is usually attributed to campaign donations and lobbying Disruptive Power argues that corporate power derives from control over the economic resources on which daily life depends Government officials must constantly strive to keep capitalists happy lest they go on capital strike that is refuse to invest in particular industries or locations or move their holdings to other countries and therefore impose material hardship on specific groups or the economy as a whole For this reason even politicians who are not dependent on corporations for their electoral success must fend off the interruption of corporate investment Disruptive Power documents the pervasive power of corporations and other institutions with decision making control over large pools of capital particularly the Pentagon It also shows that the most successful reform movements in recent U S history for workers rights for civil rights and against imperialist wars succeeded by directly targeting the corporations and other institutional adversaries that initiated and benefitted from oppressive policies Though most of today s social movements focus on elections and politicians movements of the 99% are most effective when they inflict direct costs on corporations and their allied institutions This strategy is also more conducive to building a revolutionary mass movement that can replace current institutions with democratic alternatives

**Karl Marx's Realist Critique of Capitalism** Paul Raekstad,2022-10-13 This book offers the first realist reconstruction of Marx s critique of capitalism Reading Marx through a realist lens enables us to make sense of the connections between 1 Marx s positive concept of freedom rooted in a theory of human development 2 his understanding of alienation as diagnosing capitalist unfreedom and 3 his conceptions of democracy and socialism respectively as the cures for this unfreedom Along the way it discusses and responds to some of Marx s most insightful critics such as Max Weber and Friedrich Hayek This clarifies Marx s ideas for a new generation of political thinkers explains the challenge they pose to contemporary debates about freedom democracy and future economic institutions and demonstrates that these ideas remain both defensible and compelling

**Trump and the Deeper Crisis** Kevin Young,Michael Schwartz,Richard Lachmann,2022-12-12 As far right forces cement their hold on the Republican Party and as the Democratic Party appears unable to stop them what lies ahead The authors argue that confronting Trumpism requires a frontal attack on the conditions that incubated the monster

**Organizational Communication Approaches to the Works of Joss Whedon** Andrew F. Herrmann,2019-12-02 In Organizational Approaches to the Works of Joss Whedon Andrew F Herrmann offers an in depth analysis of the connections between communication organization gender discourse and ethics in the works of Joss Whedon Herrmann examines how characters go to work in organizations how characters fight against organizations and how some organizations themselves are characters Whedon s works offer both popular and scholarly appeal often including portrayals of organizations such as The Union of Allied Planets in Firefly and Serenity and S H I E L D in The Avengers and Agents of S H I E L D Herrmann argues that by looking at how Whedon portrays these organizations including the ways in which employees are impacted by their organizations and how decision making is

affected by gender masculinity and economic discourses we can gain fresh insights into our own working lives Scholars of film studies organizational communication gender rhetoric and ethics will find this book particularly useful *Creation - Transformation - Theology* LIT Verlag,2022-01-02 The social and cultural challenges posed by the increasing threat to creation climate change destruction of biodiversity etc are the starting point for new philosophical ethical and theological reflections on the relationship between God human beings and the world as presented in this volume God s creative impulse which transforms anew is at work in the actions of human beings and challenges us in view of the threat to the house of life earth to go new ways that make a common and good life possible Creation and transformation are interrelated an ecological theology of creation and practice of sustainability to be developed in the European context is to be embedded in the horizon of a global liberating theology Prof Dr Dr h c Margit Eckholt professor of dogmatics and fundamental theology at the Institute of Catholic Theology University of Osnabr ck president of the European Society for Catholic Theology **Handbook of Research on Building Inclusive Global Knowledge Societies for Sustainable Development** Popescu, Cristina Raluca Gh.,2022-06-17 Knowledge and information have significant impacts on individuals daily lives and activities especially when referring to the new economy and the global knowledge societies However the COVID 19 pandemic has caused massive disruptions in the creation of the vital inclusive global information society Due to this change further study on the current difficulties and best practices of creating global knowledge societies is required in order to ensure communities can continue to advance and information is shared appropriately The Handbook of Research on Building Inclusive Global Knowledge Societies for Sustainable Development aims at providing an updated view of the newest trends novel practices and latest tendencies concerning building inclusive global knowledge societies for sustainable development while focusing on the benefits and the opportunities derived from the new economy and the global knowledge societies Covering topics such as smart cities food security and climate change this major reference work is ideal for policymakers government officials business owners managers academicians scholars researchers practitioners instructors and students The Oxford Handbook of International Environmental Law Lavanya Rajamani,Jacqueline Peel,2021 Taking stock of all the major developments in the field of international environmental law this text explores core assumptions and concepts basic analytical tools and key challenges
