Islam And The European Empires The Past And Present Series:

Islam and the European Empires David Motadel, 2014-09-05 At the height of the imperial age European powers ruled over most parts of the Islamic world The British French Russian and Dutch empires each governed more Muslims than any independent Muslim state European officials believed Islam to be of great political significance and were quite cautious when it came to matters of the religious life of their Muslim subjects In the colonies they regularly employed Islamic religious leaders and institutions to bolster imperial rule At the same time the European presence in Muslim lands was confronted by religious resistance movements and Islamic insurgency Across the globe from the West African savanna to the shores of Southeast Asia Muslim rebels called for holy war against non Muslim intruders *Islam and the European Empires* presents the first comparative account of the engagement of all major European empires with Islam Bringing together fifteen of the world's leading scholars in the field the volume explores a wide array of themes ranging from the accommodation of Islam under imperial rule to Islamic anti colonial resistance A truly global history of empire the volume makes a major contribution not only to our knowledge of the intersection of Islam and imperialism but also more generally to our understanding of religion and power in the modern world

The Hajj and Europe in the Age of Empire, 2016-10-05 The present volume focuses on the political perceptions of the Hajj its global religious appeal to Muslims and the European struggle for influence and supremacy in the Muslim world in the age of pre colonial and colonial empires In the late fifteenth century and early sixteenth century a pivotal change in seafaring occurred through which western Europeans played important roles in politics trade and culture Viewing this age of empires through the lens of the Hajj puts it into a different perspective by focusing on how increasing European dominance of the globe in pre colonial and colonial times was entangled with Muslim religious action mobility and agency The study of Europe's connections with the Hajj therefore tests the hypothesis that the concept of agency is not limited to isolated parts of the globe By adopting the tools of empires the Hajj in itself a global activity would become part of global and trans cultural history With contributions by Aldo D Agostini Josep Lluís Mateo Dieste Ulrike Freitag Mahmood Kooria Michael Christopher Low Adam Mestyan Umar Ryad John Slight and Bogusław R Zagórski *Daily*

Fichter, 2019-08-02 This book examines the connections between the British Empire and French colonialism in war peace and the various stages of competitive cooperation between in which the two empires were often fr res ennemis It argues that in crucial ways the British and French colonial empires influenced each other Chapters in the volume consider the two empires connections in North West and Central Africa as well as their entanglement at sea in the Mediterranean Sea Persian Gulf and South China Sea Also analysed are their mutual engagement with Islam in both the Hajj and various religiously inflected colonial revolts

their mutually informed systems of administration in the New Hebrides and generally and the interconnected ways the two empires fought World War II and decolonization By uniting historians of France and her colonies with historians of Britain and her colonies this volume speaks to a broad international and imperial history audience **Old World Empires** Ilhan Niaz,2014-03-26 This book is a sweeping historical survey of the origins development and nature of state power It demonstrates that Eurasia is home to a dominant tradition of arbitrary rule mediated through military civil and ecclesiastical servants and a marginal tradition of representative and responsible government through autonomous institutions The former tradition finds expression in hierarchically organized and ideologically legitimated continental bureaucratic states while the latter manifests itself in the state of laws In recent times the marginal tradition has gained in popularity and has led to continental bureaucratic states attempting to introduce democratic and constitutional reforms These attempts have rarely altered the actual manner in which power is exercised by the state and its elites given the deeper and historically rooted experience of arbitrary rule Far from being remote the arbitrary culture of power that emerged in many parts of the world continues to shape the fortunes of states To ignore this culture of power and the historical circumstances that have shaped it comes at a high price as indicated by the ongoing democratic recession and erosion of liberal norms within states that are democracies
