Isreal Defeats The Amalekites Craft:

Making Sense of Old Testament Genocide Christian Hofreiter, 2018-02-16 The divine commands to annihilate the seven nations living in Canaan to devote them to destruction herem in Biblical Hebrew are perhaps the most morally troubling texts of the Hebrew and Christian bibles *Making Sense of Old Testament Genocide* Christian Interpretations of Herem Passages addresses the challenges these texts pose It presents the various ways in which interpreters from the first century to the twenty first have attempted to make sense of them The most troubling approach was no doubt to read them as divine sanction and inspiration for violence and war the analysis of the use of herem texts in the crusades the inquisition and various colonial conquests illustrates this violent way of reading the texts which has such alarming contemporary relevance Three additional approaches can also be traced to antiquity viz pre critical non literal and divine command theory readings Finally critics of Christianity from antiquity via the Enlightenment to today have referenced herem texts their critical voices are included as well Christian Hofreiter combines a presentation of a wide range of historical sources with careful analysis that scrutinizes the arguments made and locates the texts in their wider contexts Influential contributions of such well known figures as Augustine Origen Gregory the Great Thomas Aquinas and John Calvin are included as well as those of critics such as Marcion Celsus and Matthew Tindal and less widely known texts such as crusading histories songs and sermons colonial conquest accounts and inquisition manuals The book thus sheds new light on the ways in which these texts have shaped the thoughts and actions of their readers through the centuries and offers pertinent insights into how readers might be able to make sense of them today

Homilies on Numbers Origen, 2025-07-29 Origen of Alexandria 185-254 one of the most prolific authors of antiquity and arguably the most important and influential pre-Nicene Christian theologian was a man of deep learning and holiness of life Regrettably many of his works are no longer extant in part due to the condemnation of his ideas by the Fifth Ecumenical Council in 553 The condemnation however took little account of his historical circumstances and the tentative nature of his speculations The anathemas were more likely directed toward sixth-century Origenist views than to the views of Origen himself though clearly he expounded some views that would be judged unacceptable today Origen's numerous homilies provide the oldest surviving corpus of Christian sermons and shaped exegesis for succeeding centuries With Jerome he was one of the early church's great critical and literal exegetes Devoutly he sought to develop a spiritual exegesis of the Old Testament grounded in the revelation of Jesus Christ The Homilies on Numbers presented here offer a splendid example of his spiritual interpretation of Old Testament texts He asks What foreshadowing what warning what instruction what encouragement reproof correction or exhortation do we find in the narratives of Numbers for our benefit as Christians Here based on Baehren's critical Latin text is the first English edition of these homilies ably translated with explanatory notes by Thomas P. Scheck Ancient Christian Texts are new English translations of full-length commentaries or sermon series from ancient Christian authors that allow you to study key writings of the early church fathers in a fresh way
