Aspiration and Reality in Legal Education David Sandomierski, 2020-02-24 Contrary to conventional narratives about legal education *Aspiration and Reality in Legal Education* reveals a widespread desire among law teachers to integrate both theory and practice into the education of versatile and civic minded lawyers Despite this stated desire however this aspiration is largely unrealized due to a host of intellectual and institutional factors that produce a profound gap between what professors believe about law and the ideas they communicate through their teaching Drawing on interviews with over sixty law professors in Canada David Sandomierski makes two important empirical discoveries in this book First he establishes that contrary to a dominant narrative in legal education that conceives of theory and practice as oppositional the vast majority of law professors consider theory to be vitally important in preparing better lawyers Second he uncovers a significant gap between

the realist theoretical commitments held by a majority of professors and the formalist theories they almost uniformly convey through their teaching and conceptions of legal reasoning Understanding the intellectual and institutional factors that account for these tensions Sandomierski argues is essential for any meaningful project of legal education reform *Beyond Legal Reasoning: a Critique of Pure Lawyering* Jeffrey Lipshaw, 2017-03-27 The concept of learning to think like a lawyer is one of the cornerstones of legal education in the United States and beyond In this book Jeffrey Lipshaw provides a critique of the traditional views of thinking like a lawyer or pure lawyering aimed at lawyers law professors and students who want to understand lawyering beyond the traditional warrior metaphor Drawing on his extensive experience at the intersection of real world law and business issues Professor Lipshaw presents a sophisticated philosophical argument that the pure lawyering of traditional legal education is agnostic to either truth or moral value of outcomes He demonstrates pure lawyering's potential both for illusions of certainty and cynical instrumentalism and the consequences of both when lawyers are called on as dealmakers policymakers and counsellors This book offers an avenue for getting beyond or unlearning merely how to think like a lawyer It combines legal theory philosophy of knowledge and doctrine with an appreciation of real life judgment calls that multi disciplinary lawyers are called upon to make The book will be of great interest to scholars of legal education legal language and reasoning as well as professors who teach both doctrine and thinking and writing skills in the first year law school curriculum and for anyone who is interested in seeking a perspective on thinking like a lawyer beyond the litigation arena Law School In Plain English N.A. Capozzi, 2014-02-13 The premise of the book is simple to teach law students how to be law students So much time is lost in law school with students trying to learn how to be a law student So many students spend too much time learning how to take notes prepare for class case brief outline prepare for finals and so much more No one will teach them these things yet mastery of these things is pivotal to the student's success in law school This causes the student stress leads to being unproductive and it can create an unbalanced lifestyle Law School in Plain English is the solution to these problems With its uncompromising plainness and easy to read style the book covers all aspects of what it means to be a law student how to succeed and how to improve quality of life while in law school **ACCA Paper F4 - Corp and Business Law (GLO) Practice and revision kit** BPP Learning Media, 2012-01-01 The examiner reviewed F4 Global Practice and Revision Kit contains over 100 exam standard questions and 3 complete mock exams It tackles all the main syllabus areas and provides plenty of advice on newly examinable UN Model Laws as well as important syllabus areas such as corporate governance and ethics Through practice students are armed with BPP's ISAC approach for approaching legal questions providing the structure and method to earn the maximum marks possible *Chinese Insurance Contracts* Zhen Jing, 2016-11-25 Chinese Insurance Contracts Law and Practice is the first systematic text written in English on the law of insurance in China This book offers a critical analysis of the major principles doctrines and concepts of insurance contract law in China At every point the analysis discusses the principles of the Insurance Law in detail referring
