Smardon, 2021-06-03 This book contains five research articles and one review article derived from the 6th Fabos Conference on Greenway Planning held at the University of Massachusetts Amherst in April of 2019 Specific topics covered include greenway planning and analysis for urban morphology typology climate change impact and recreational and health usage in addition to historic greenway restoration All the articles illustrate multidisciplinary approaches for analyzing urban greenway functions within expanding and contracting cities Greenways for America Charles E. Little, 1995-05 A description of the citizen led effort to get Americans out of their cars and into the landscape via greenways linear open spaces that preserve and restore nature in cities suburbs and rural areas These can link parks and open spaces and provide corridors for wildlife migration

*MetroGreen* Donna Erickson, 2012-09-26 In metropolitan areas across the country you can hear the laments over the loss of green space to new subdivisions and strip malls But some city residents have taken unprecedented measures to protect their open land and a growing movement seeks not only to preserve these lands but to link them in green corridors Many land use and urban planning professionals along with landscape architects and environmental advocates have joined in efforts to preserve natural areas MetroGreen answers their call for a deeper exploration of the latest thinking and newest practices in this growing conservation field In ten case studies of U S and Canadian cities paired for comparative analysis Toronto and Chicago Calgary and Denver and Vancouver and Portland among them Erickson looks closely at the motivations and objectives for connecting open spaces across metropolitan areas She documents how open space networks have been successfully created and protected while also highlighting the critical human and ecological benefits of connectivity MetroGreen s unique focus on several cities rather than a single urban area offers a perspective on the political economic cultural and environmental conditions that affect open space planning and the outcomes of its implementation **The**

**Greenway Imperative** Charles A. Flink, 2020-02-03 In this eye opening journey through some of America s most innovative landscape architecture projects Charles Flink shows why we urgently need greenways A leading authority in greenway planning design and development Flink presents inspiring examples of communities that have come together to build permanent spaces for the life sustaining power of nature Beyond Greenways Robert Searns, 2023-07-25 Would you

experience your city differently if your doorstep were a trailhead Many people don t have close by safe places to walk despite walking s known benefits In *Beyond Greenways The Next Step for City Trails and Walking Routes* greenways expert Robert Searns introduces a new generation of more accessible pathways that stitch together urban and suburban areas Searns introduces two models grand loop trails and town walks Grand loop trails are 20 to 350 mile systems that encircle metro areas Town walks are shorter 2 to 6 mile routes in cities He then lays out how to plan design and build support for them drawing inspiration from trails in the US and abroad Planners trail advocates and community leaders will find the tools here

to develop successful and affordable trails Now is the time to pursue accessible pedestrian routes for this and future generations      *Building Gateway Partnerships* Sue Abbott,1997      **Planning Knowledge and Research** Thomas W. Sanchez,2017-12-22 The field of urban planning is far reaching in breadth and depth This is due to the complex nature of cities regions and development processes The knowledge domain of planning includes social economic technological environmental and political systems that continue to evolve and expand rapidly Understanding these systems is an interdisciplinary endeavor at the scale of several academic fields The wide range of topics considered by planning educators and practitioners are often based on varying definitions of planning and modes of planning practice This unique book discusses various elements and contributions to urban planning research to show that seemingly disparate topics do in fact intersect and together contribute to ways of understanding urban planning The objective is not to discuss how to do research but rather to explore the context of urban planning scholarship with implications for the planning academy and planning practice This edited volume includes chapters contributed by a diverse range of planning scholars who consider the corpus of planning scholarship both historically and critically in their area of expertise It is essential reading for students of planning research and planning theory from around the world      *Green Infrastructure* Mark A.
