Israel The Founding Of A Modern Nation:

Israel Maida Silverman,1998 Traces the history of the Jews from Biblical times to the present and describes the events that led to the establishment of the modern state of Israel Lectures on Ancient Israel, and the Israelitish Origin of the

Modern Nations of Europe John WILSON (of Cheltenham.),1840 The Invention of Ancient Israel Keith W.

Whitelam,2013-11-19 The Invention of Ancient Israel shows how the true history of ancient Palestine has been obscured by the search for Israel Keith W Whitelam shows how ancient Israel has been invented by scholars in the image of a European nation state influenced by the realisation of the state of Israel in 1948 He explores the theological and political assumptions which have shaped research into ancient Israel by Biblical scholars and contributed to the vast network of scholarship which Said identified as Orientalist discourse This study concentrates on two crucial periods from the end of the late Bronze Age to the Iron Age a so called period of the emergence of ancient Israel and the rise of an Israelite state under David It explores the prospects for developing the study of Palestinian history as a subject in its own right divorced from the history of the Bible and argues that Biblical scholars through their traditional view of this area have contributed to dispossession both of a Palestinian land and a Palestinian past This controversial book is important reading for historians Biblical specialists social anthropologists and all those who are interested in the history of ancient Israel and Palestine **The Modern World**

Restoration Is Near John Taylor,2024-01-18 Israel s Restoration Is Near is a book that gives a breakdown of all prophetic events beginning with John the Baptist and ending with America It shows how the United States although not directly referenced in Scripture is God s end time nation that is being used to usher in the ultimate salvation of Israel It describes the prophetic calendar used throughout history and explains how God uses the 490 year period to usher in new events throughout history This book describes how the ancient prophets predicted the fall of Jerusalem and explains how during this fall salvation came to the world to provoke Israel to jealousy and fulfill Scripture Israel s Restoration Is Near shows how the Holy Roman Empire was used to temporarily replace the ancient Israel and rid the world from idol worship It shows how this empire helped the world to transition from an ancient world to the modern world Once modern nations emerged God s

prophetic clock and 490 years again began its countdown resulting in a series of events that led to the rebirth of the nation of Israel and the rise of the greatest nation in history America Israel's Restoration Is Near shows that at the end of the 490 year period which began in the Reformation of 1517 the time line for America's demise also began in 2007 and the birth of Islamic movement began which would ultimately lead to the Gog and Magog war and not the rapture The book shows according to Scripture that period of Antichrist and tribulation occurs one thousand years before Gog and Magog During this prophetic countdown unlike the typical prophetic interpretations the world is being prepared for as Scripture predicts the deliverer salvation of Israel and a temporary period of peace that would lead to the Gog and Magog war **Princeton Review AP**

Grabbe, 1997-01-01 This Symposium asks whether a history of Israel can be written and if it can how Can the Hebrew Bible be used as a source for such history The question of writing the history of ancient Israel has become fiercely debated in recent years It is a debate that seems to generate more heat than light because of quite different concepts of historical methodology The European Seminar on Methodology in Israel's History was founded specifically to address this problem Members of the Seminar hold a variety of views but all agree that there is a problem to be tackled The first meeting of the Seminar held in Dublin in 1996 was devoted to some broad questions 1 Can a history of ancient Israel or Palestine Syria the Levant etc be written 2 If so how What place does the Hebrew Bible have as a source in writing this history This first volume contains the main papers that were prepared to set the stage for the discussion along with an introduction to the Seminar its aims and its membership The editor also provides a concluding chapter summarizing and reflecting on the debate **A**

History of Modern Israel Colin Shindler, 2013-03-25 Colin Shindler's remarkable history begins in 1948 as waves of immigrants arrived in Israel from war torn Europe to establish new cities new institutions and a new culture founded on the Hebrew language Optimistic beginnings were soon replaced with the sobering reality of wars with Arab neighbours internal ideological differences and ongoing confrontation with the Palestinians In this updated edition Shindler covers the significant developments of the last decade including the rise of the Israeli far right Hamas's takeover and the political rivalry between

Gaza and the West Bank Israel's uneasy dealings with the new administration in the United States political Islam and the potential impact of the Arab Spring on the region as a whole This sympathetic yet candid portrayal asks how a nation that emerged out of the ashes of the Holocaust and was the admiration of the world is now perceived by many Western governments in a less than benevolent light [Arieh Sharon and Modern Architecture in Israel](#) Eran Neuman,2023-11-30

[Arieh Sharon and Modern Architecture in Israel](#) Building Social Pragmatism offers the first comprehensive survey of the work of Arieh Sharon and analyzes and discusses his designs and plans in relation to the emergence of the State of Israel A graduate of the Bauhaus Sharon worked for a few years at the office of Hannes Mayer before returning to Mandatory Palestine There he established his office which was occupied in its first years in planning kibbutzim and residential buildings in Tel Aviv After the establishment of the State of Israel in 1948 Arieh Sharon became the director and chief architect of the National Planning Department where he was asked to devise the young country's first national masterplan Known as the Sharon Plan it was instrumental in shaping the development of the new nation During the 1950s and 1960s Sharon designed many of Israel's institutions including hospitals and buildings on university campuses This book presents Sharon's exceptionally wide range of work and examines his perception of architecture in both socialist and pragmatist terms It also explores Sharon's modernist approach to architecture and his subsequent shift to Brutalist architecture when he partnered with Benjamin Idelson in the 1950s and when his son Eldar Sharon joined the office in 1964 Thus the book contributes a missing chapter in the historiography of Israeli architecture in particular and of modern architecture overall This book will be of interest to researchers in architecture modern architecture Israel studies Middle Eastern studies and migration of knowledge
