**The Green Library Planner** Mary M. Carr, 2013-09-11. Green buildings are better buildings. In fact, buildings use 36% of the energy in the United States according to the Environmental Protection Agency, so green buildings that use less energy help to address the very real challenges of reliance on fossil fuel and climate change. More than only being environmentally responsible, green libraries are beautiful, cost-effective, high-performance buildings that enhance occupant health and comfort. The Green Library Planner is designed for members of library building design teams who typically are not actively engaged in architecture, construction, or engineering but who need an introduction to the rationale for green buildings, the elements of green building, and the language of the field. It will be equally useful for public officials, boards, or administrators who are considering a new green library building, a renovated library structure, or sustainable elements for a current library facility. Mary M. Carr, a library director who is also a LEED Accredited Professional with national certification, first introduces the basic tenets of green building. She then covers the gamut of green building from design through all phases of construction or renovation to operations and maintenance. Chapter highlights include: Fundamentals of Sustainable Building, The Importance of Place, Energy and Lighting, Indoor Environmental Quality, Water Conservation and Quality, Sustainable Construction Management Techniques, Commissioning

Sustainable Operations and Maintenance With this information the librarian and related library staff and administrators will be able to design build or renovate and operate the library in the best way possible while considering the environmental and economic challenges faced locally and globally in the 21st century      Professional Helicopter Pilot Studies Croucher Phil,2007-01-01 Based on the author s EASA approved ATPL H modular distance learning course this book provides all the material required for the EASA exams including the PPL H CPL H and ATPL H plus a few extras like the Instrument Rating The book has been specially designed for the needs of professional or military pilots seeking to gain an alternative licence but newcomers to the industry can use it too since it assumes no previous knowledge      *Introduction to Corrections* Robert D. Hanser,2023-02-14 Introduction to Corrections provides students with a comprehensive foundation of corrections that is practitioner driven and grounded in modern research and theoretical origins This text uniquely illustrates how the day to day practitioner conducts business in the field of corrections in both institutional and community settings Experienced correctional practitioner scholar and author Robert D Hanser shows students how the corrections system actually works from classification to security to treatment to demonstrating how and why correctional practices are implemented Key Features Balanced coverage of research and practice offers students a comprehensive view of the field and evidence based practices as they prepare for a career in corrections and or the criminal justice system Assessment and classification from both institutional and community corrections perspectives offer students a well rounded understanding of the field of corrections Exclusive Prison Tour and Inmate videos provide a view into the daily operations of the correctional facilities at Angola State Penitentiary and Richwood Correctional Center with commentary from correctional staff Engaging chapter opening vignettes highlight important issues in corrections and allow students to understand the challenges corrections practitioners face each day Various issues associated with specialized offender typologies help students understand a variety of offenders they will encounter in the field such as female offenders geriatric offenders mentally ill offenders gang offenders and others
