Grace King A Southern Destiny Southern Literary Studies:

Grace King Robert B. Bush, 1999-03-01 The New Orleans writer Grace King was an intensely loyal daughter of the South Fostered by bitter memories of the Civil War her loyalty was kept burning by her family's struggle to regain its wealth and maintain its social position during the long agony of Reconstruction In *Grace King A Southern Destiny* Robert Bush tells of King's life and her art both of which she enthusiastically dedicated to the memory and welfare of her region her city and her family When she began writing in 1886 it was out of a sense of anger at what she saw as George Washington Cable's disloyalty to the South his deliberately false portrayal of New Orleans Creoles and blacks King was herself a conservative in racial matters and a number of her stories celebrate the loyalty that she has observed freed slaves showing their former masters But Grace King was far from conservative in her determination to earn money as a writer and to master the ideas of her era neither endeavor considered a particularly appropriate ambition for a patrician woman of her time She was proud to be able to contribute to her family's income and she developed a sharp eye for the fluctuations in the literary marketplace In the late 1880s King worked in the local color genre that was then in vogue When the demand for that school of regional writing declined in the 1890s she turned to the shorter balcony stories in which the details of local background were minimized Then later in the decade she focused her talents on writing Louisiana history after she found that publishers wanted the kind of sound colorful work she was capable of producing Grace King's major accomplishments in fiction are a small number of first rate stories and a quiet realistic novel about New Orleans during Reconstruction *The Pleasant Ways of St M dard* Her best historical work is *New Orleans the Place and the People* However the significance and fascination of her life lies not just in the pages of the books she wrote but also in her role as a literary champion of the South carrying her determined views from New Orleans to New York New England Canada England and France Grace King Robert Bush, 1983-01-01

Nineteenth-Century Southern Women Writers Melissa Heidari, Brigitte Zaugg, 2019-08-12 The essays in this book explore the role of Grace King's fiction in the movement of American literature from local color and realism to modernism and show that her work exposes a postbellum New Orleans that is fragmented socially politically and linguistically In her introduction Melissa Walker Heidari examines selections from King's journals and letters as views into her journey toward a modernist aesthetic what King describes in one passage as the continual voyage I made Sirpa Salenius sees King's fiction as a challenge to dominant conceptualizations of womanhood and a reaction against female oppression and heteronormativity In his analysis of *An Affair of the Heart* Ralph J Poole highlights the rhetoric of excess that reveals a social satire debunking sexual and racial double standards Ineke Bockting shows the modernist aspects of King's fiction through a stylistic analysis which explores spatial temporal biological psychological social and racial liminalities Fran oise Buisson demonstrates that King's writing is inspired by the Southern oral tradition but goes beyond it by taking on a theatrical dimension that can be quite modern and even experimental at times Kathie Birat claims that it is important to

underline King's relationship to realism for the metonymic functioning of space as a signifier for social relations is an important characteristic of the realist novel. Stephanie Durran analyzes *The Story of a Day* as an incest narrative and focuses on King's development of a modernist aesthetics to serve her terrifying investigation into social ills as she probes the inner world of her silent character Amy Doherty. Mohr explores intersections between regionalism and modernism in public and silenced histories as well as King's treatment of myth and mobility. Brigitte Zaugg examines in *The Little Convent Girl* King's presentation of the figure of the double and the issue of language as well as the narrative voice which she argues definitely inscribes the text with its understatement economy and quiet symbolism in the modernist tradition. Miki Pfeffer closes the collection with an afterword in which she offers excerpts from King's letters as encouragement for scholars to seek Grace King as a primary source, arguing that Grace King's own words seem best able to dialogue with the critical readings herein. Each of these essays enables us to see King's place in the construction of modernity; each illuminates the continual voyage that King made.

Imagining the Creole City Rien Fertel, 2014-11-17 In the early years of the nineteenth century the burgeoning cultural pride of white Creoles in New Orleans intersected with America's golden age of print to explosive effect. *Imagining the Creole City* reveals the profusion of literary output: histories and novels, poetry and plays that white Creoles used to imagine themselves as a unified community of writers and readers. Rien Fertel argues that Charles Gayarré's English language histories of Louisiana, which emphasized the state's dual connection to America and to France, provided the foundation of a white Creole print culture predicated on Louisiana's exceptionalism. The writings of authors like Grace King, Adrien Rouquette, and Alfred Mercier consciously fostered an image of Louisiana as a particular social space and of themselves as the true inheritors of its history and culture. In turn, the forging of this white Creole identity created a close-knit community of cosmopolitan Creole elites who reviewed each other's books, attended the same salons, crusaded against the popular fiction of George Washington Cable, and worked together to preserve the French language in local and state governmental institutions. Together they reimagined the definition of Creole and used it as a marker of status and power. By the end of this group's era of cultural prominence, Creole exceptionalism had become a cornerstone in the myth of Louisiana in general and of New Orleans in particular. In defining themselves, the authors in the white Creole print community also fashioned a literary identity that resonates even today.

North and South Christine DeVine, Mary Ann Wilson, 2014-07-24 *North and South* is a multi-dimensional look at a prevailing theme in current discourse on the concept of borders. This collection of essays invites us to cross historical, regional, and disciplinary boundaries. The contributors consider a range of primary texts, use a number of critical approaches, and make some surprising connections. The borders created by the concepts of north and south provoke us to ask if the terms continue to represent real divisions or if usage and habit have drained them of any real meaning. And how have literary texts sought to represent and elucidate the divisions and to complicate and undermine such rigid categories? This collection of essays considers such questions and offers some tentative

and original answers The essays in North and South treat a wide variety of topics generically and geographically chronologically and creatively They interrogate the elusive topic of boundaries symbolic and literal boundaries as means of communication rather than division boundaries that create borderlands boundaries that invite transgression boundaries that resist erasure Across and within these boundaries the theme of identity emerges international national regional gendered racial ethnic
