#### **Locating the Field**

Simon Coleman,Peter Collins,2020-09-09 Are reports of the death of conventional fieldwork in anthropology greatly exaggerated This book takes a critical look at the latest developments and key issues in fieldwork The nature of locality itself is problematic for both research subjects and fieldworkers on the grounds that it must now be maintained and represented in relation to widening and fragmenting social frames and networks Such developments have raised questions concerning the nature of ethnographic presence and scales of comparison From the social space of a cybercafe to cities in India the UK and South Africa among others this book features a wide range of ethnographic studies that provide new ways of looking at the concepts of locality and site It shows that rather than taking key fieldwork processes such as globalization and mobility for granted anthropologists are well placed to examine and critique the totalizing assumptions behind these notions *Last Hope* Katinka Ridderbos,2007

#### **Effectiveness of teachers' guides in the Global South**

Benjamin Piper, Yasmin Sitabkhan, Jessica Mejia, Kellie Betts, 2018-05-10 This report presents the results of RTI International Education's study on teachers guides across 13 countries and 19 projects Using quantitative and qualitative methods we examine how teachers guides across the projects differ and find substantial variation in the design and structure of the documents We develop a scripting index so that the scripting levels of the guides can be compared across projects The impact results of the programs that use teachers guides show significant impacts on learning outcomes associated with approximately an additional half year of learning showing that structured teachers guides contribute to improved learning outcomes During observations we find that teachers make a variety of changes in their classroom instruction from how the guides are written showing that the utilization of structured teachers guides do not create robotic teachers unable to use their own professional skills to teach children Unfortunately many changes that teachers make reduce the amount of group work and interactivity that was described in the guides suggesting that programs should encourage teachers to more heavily utilize the instructional routines designed in the guide The report includes a set of research based guidelines that material developers can use to develop teachers guides that will support effective instructional practices and help improve learning outcomes The key takeaway from the report is that structured teachers guides improve learning outcomes but that overly scripted teachers guides are somewhat less effective than simplified teachers guides that give specific guidance to the teacher but are not written word for word for each lesson in the guide **Nepal Who's who**, 1997 *Kids Creation (Nepal)* Abhi Bastakoti, Bijan Panta, Sulekha Bhandari, Suyash Nepal, Nimisha Timsina, Garima Aryal, 2015-07-01 June 2015 issue of children magazine Kids Creation Baal Sirjana or 80 pages long magazine has poems articles and art of children of various age and articles related to children in English and Nepali languages *The Workings of Human Rights, Law and Justice* Surya Subedi, QC, 2022-04-21 Drawing on the personal experience of a leading international jurist this book provides insights into the workings of international law and human rights from a global perspective that transcends the traditional divide between the West and the East and the Global South and Global North The work follows the author's remarkable journey from a simple village in Nepal to becoming an international jurist acclaimed for his innovative academic and influential practical legal work and nomination for the Nobel Peace Prize It offers insights into the powers bearing on international policymaking the dynamics of human rights negotiations with governments and the effects of their outcomes on the lives of their citizens While much has been written on international human rights law this inspirational memoir casts a new light on the working of human rights law and justice through the eyes of a leading actor It provides a valuable contribution to the study of justice and human rights and the importance of individual action As such the book presents an accessible source for current debates around the development and effectiveness of international law and human rights and practices for decolonising these debates The book will provide inspiration and practical guidance for students academics international lawyers jurists and human rights advocates *Walford's Guide to Reference Material: Generalia, language and*

Mandira Sharma, Seira Tamang, 2016-10-25 The Sexual Violence and Impunity in South Asia research project coordinated by Zubaan and supported by the International Development Research Centre brings together for the first time in the region a vast body of research on this important yet silenced subject Six country volumes one each on Bangladesh Nepal Pakistan Sri Lanka and two on India as well as two standalone volumes comprising over fifty research papers and two book length studies detail the histories of sexual violence and look at the systemic institutional societal individual and community structures that work together to perpetuate impunity for perpetrators The essays in this volume focus on Nepal which though not directly colonized has not remained immune from the influence of colonialism in its neighbourhood In addition to home grown feudal patriarchal structures the writers in this volume clearly demonstrate that it is the larger colonial and post colonial context of the subcontinent that has enabled the structuring of inequalities and power relations in ways that today allow for widespread sexual violence and impunity in the country through legal systems medical regimes and social institutions The period after the 1990 democratic movement the subsequent political transformation in the aftermath of the Maoist insurgency and the writing of the new constitution has seen an increase in public discussion about sexual violence The State has brought in a slew of legislation and action plans to address this problem And yet impunity for perpetrators remains intact and justice elusive What are the structures that enable such impunity What can be done to radically transform these How must States understand the search for justice for victims and survivors of sexual violence This volume addresses these and related issues Published by Zubaan

Liechty, 2017-02-21 Westerners have long imagined the Himalayas as the world's last untouched place and a repository of redemptive power and wisdom Beatniks hippie seekers spiritual tourists mountain climbers diverse groups of people have traveled there over the years searching for their own personal Shangri La In *Far Out Mark* Liechty traces the Western

fantasies that captured the imagination of tourists in the decades after World War II asking how the idea of Nepal shaped the everyday cross cultural interactions that it made possible Emerging from centuries of political isolation but eager to engage the world Nepalis struggled to make sense of the hordes of exotic enthusiastic foreigners They quickly embraced the phenomenon however and harnessed it to their own ends by building tourists fantasies into their national image and crafting Nepal as a premier tourist destination Liechty describes three distinct phases the postwar era when the country provided a Raj like throwback experience for rich Americans Nepal s emergence as an exotic outpost of hippie counterculture in the 1960s and its rebranding into a hip adventure destination which began in the 1970s and continues today He shows how Western projections of Nepal as an isolated place inspired creative enterprises and paradoxically allowed locals to participate in the global economy Based on twenty five years of research Far Out blends ethnographic analysis a lifelong passion for Nepal and a touch of humor to produce the first comprehensive history of what tourists looked for and found on the road to Kathmandu
