

Sea Turtles

Green Sea Turtles are one of the largest species of turtles. They grow to be three to four feet long and have the largest shells of all turtles. They can be found in oceans bordering more than 80 countries. The highest population of Green Sea Turtles is found in Australia and Costa Rica.

Green Sea Turtles migrate, which means they travel long distances between where they feed and where they lay their eggs. They migrate more than 1,600 miles from where they live to where they lay their eggs.

Green Sea Turtles lay their eggs on the same beaches where they were born.
