Lost Lore A Celebration Of Traditional Wisdom:

Lost Lore Una McGovern, Paul Jenner, 2009 Pays tribute to the knowledge that earlier generations learned through tradition folklore and superstitions by offering solutions to situations ranging from first aid and socializing to food preservation and wilderness survival *A Conflict of Self Interest* Adrian A. Hankey, 2016-08-02 Self or Soul is an essential energy centred in every living body and is about instinct species survival and coexistence with all other Life It is not a belief nor any part of Brain Brain is the natural manager of the body in which Soul exists The natural function of Brain is to facilitate Soul purpose throughout Life Brain copies or creates beliefs to make everything true or real and with memory and logic it creates time space knowledge and world Educated Brain tends to deny Self and so creates a greater need for entertainment exploration pets and more Civilization is run entirely by Brains But that complex process has yet to run for more than a few hundred years without final disaster The only peoples who have survived for millenia have done so by depending consistently upon Self family home legend lore wisdom and heritage most of which are presently being civilly disrespected and ignored No belief of science psychology or religion can ever explain or replace any of these On this finite planet population increase has become too serious to ignore Natural increase seems due mostly to cultural stress and ageing But serious unnatural population increase is now due to religiously enforced non birth control amongst poor and ignorant people Greedy corporations and developers also encourage population expansion which will ultimately cause the collapse of people species For survival of people species the current civil process must accept a more localized traditional and cultural Wisdom not based upon nor necessarily denying science or religion The British National Bibliography Arthur James Wells, 2009 *The Wisdom of Jesus* Charles W. Hedrick, 2014-11-07 How would the image of Jesus appear if it were based only on sayings that scholars generally agreed originated with Jesus And how would the wisdom of Jesus reflected in those few sayings compare to the wisdom of the sages of ancient Israel and the apostles of the early first century church To answer such questions historians face serious difficulties Everything we know about Jesus comes from what later writers thought about him none of the things they claimed he said came directly from him Everything in the early Christian gospels is either derived from historical memory or is borrowed or invented Hedrick claims Even those few sayings receiving near universal agreement from historians as sayings of Jesus can only be affirmed as probable rather than certain The aim of this study is to allow Jesus to speak for himself directly to readers as nearly as possible in his own words without the theological explanations of his interpreters The resulting image of Jesus that emerges is a complex picture of a first century lower class man who was not religious in a traditional sense His discourse was the language of the secular world and addressed issues of common life *The Wisdom of the Chinese Kitchen* Grace Young, 2014-07-01 The Wisdom of the Chinese Kitchen with its 150 recipes culled from a lifetime of family meals and culinary instruction is much more than a cookbook The Wisdom of the Chinese Kitchen is a daughter s tribute a collection of personal memories of the philosophy and superstitions behind culinary
