Common Threads Adele Flood, 2014-10-16 Common Threads explores ideas of artistic identity and memory contained within the narrated stories of ten textile artists It reveals how individuals bring a

sense of linearity to fragments of memory and create a cohesive sense of self through telling their life's story. By employing a systems model, the author constructs new ideas of interrogating identity and art practice. The model *Constructing Personal Narratives* brings into focus the hermeneutic circle of learning and identifies the importance and need to provide opportunities for lifelong learning. The stories told by the participants who returned to the formal education sector later in life reveal the profound effects adult learning had upon their lives. The writer reveals how the model generated the interview questions that provided the rich biographical content that emerged within dialogues. The common threads of experience and feelings of the ten participants and the author are revealed and from these emerge deepened understandings of both the place of stories within our lives and how stories can further an understanding of what it means to be an artist. Emerging from these stories are implications for teaching practice; these are presented as observations and questions in terms of how educators should be part of the learning experience with those they educate.

The Asymptote of Love James Kellenberger, 2018-10-16 In *The Asymptote of Love* James Kellenberger develops a theory of religious love that resists essentialist definitions of the term and brings into conversation historical debates on love in Western philosophy and Christian theology. He argues that if love can be likened to a mathematical asymptote which is a straight line that infinitely approaches a curve but never quite reaches it, then the asymptote of love reaches toward the infinite endpoint of love at its uttermost, namely God's love. Drawing upon a broad range of thinkers who have put forth classic debates on love such as St Augustine of Hippo, Anders Nygren, and St Thomas Aquinas, as well as some lesser-known figures in the debate such as Leo Tolstoy and Albert Schweitzer, Kellenberger explains the profound connection between human agape and God's infinite love in its capacity to offer both directive guidance and to exist beyond human conception.
