for the 21st Century Linda Huetinck,Sara N. Munshin,2008 This third edition of Teaching Mathematics for the 21st Century
continues to help teachers let the secret out to open up to their students the wonderful discoveries and challenges of the
pattern making and problem solving aspects of a fascinating subject mathematics The rationale remains the same to enable
prospective and current teachers to access and use tools and strategies to effectively teach mathematics to contemporary
students Changing demographics knowledge of how people learn and technology all impact the way we educate our young
people This edition incorporates lessons and strategies from programs that have proven success in many types of classrooms
Many of these examples help students connect mathematics to real life situations and communicate their understanding of
the underlying concepts Although technology is constantly being upgraded ways to increase student motivation through its
application remains a goal For example since applets can enhance a lesson whether the teacher uses a computer projector a
smart board or has students work individually on computers we have identified several sources of mathematics applets that
can be correlated to various lessons Research citations and summaries have been updated to reflect current information on
