Educational Freedom in Urban America David F. Salisbury, Casey Lartigue, 2004 This book offers a prescription for reform that includes freedom of choice among public and private schools *Educational Freedom in Urban America* David Salisbury, Casey Lartigue Jr., 2004-05-25 In 1954 the U S Supreme Court declared segregated public schools unconstitutional The ruling in *Brown v Board of Education* set public education on a course toward equality Yet five decades later schools are not equal Minority children living in America's inner cities suffer disproportionately from a failing education system with black and Hispanic students dropping out of public high schools at much higher rates than whites There is however reason for hope The expansion of school choice offers new opportunities for children struggling in failing schools In this collection a dozen leading scholars educators and reformers including Andrew Coulson Floyd Flake Frederick Hess and Paul E Peterson examine the legacy of *Brown v Board* and its relation to the modern day school choice movement A school administrator and a charter school founder also reveal the challenges and obstacles faced by enterprising teachers in trying to help their students Together these experts expose the modern barriers that deprive inner city children of a good education and call for increased school choice as the most effective way to achieve the goals of *Brown v Board* *Educational Freedom in Urban America* is essential reading for anyone concerned with the condition of our inner city schools and the racial and social inequities that still exist in American education

Urban Ministry Manuel Ortiz, Harvie M. Conn, 2025-06-06 No 3 in the Academy of Parish Clergy Top Ten Books of the Year The city presents serious challenges that cry out for answers poverty racism human exploitation and government corruption How can the church move ahead in the midst of these demands with the gospel of hope Here in one comprehensive volume Harvie Conn and Manuel Ortiz two noted scholars and proven practitioners of urban ministry address the vital work of the church in the city Their dual goal to

understand the city and God's work in it. Through four great waves of development Conn and Ortiz trace the history of the city around the world. Then they tackle the critical issue of a biblical basis for urban mission. How does the Bible view the city? Are we closer to God in the country than the city? Does the Bible have an anti-urban bias? These questions are given a thorough analysis that unveils God's urban mandate as reflected in both Old and New Testaments. From this foundation the authors unpack the multifaceted nature of the city as place, as process, as center, as power, and as a place of change and stability. They move us beyond fragmented stereotypes to a new way of seeing that is holistic enough for a fully biblical ministry to develop. In addition, Conn and Ortiz lay out what the social sciences have to offer urban mission, including ethnographic and demographic studies, and they focus on the particular issues and needs of urban leadership, including a plan for developing and mentoring leaders while equipping the laity for ministry in the city. This is the essential text for bringing God's kingdom to the city through the people of God.

Urban Legends of the Old Testament David A. Croteau, Gary Yates, 2019-12-01. *Urban Legends of the Old Testament* surveys forty of the most commonly misinterpreted passages in the Old Testament.

Christ + City Jon M. Dennis, 2013-04-30. Paris, Nairobi, Tokyo, Chicago. For the first time in history, over half of the world's population lives in cities, and yet evangelicals make up only 2% of many major urban populations. In this urban manifesto, pastor and author Jon Dennis argues that the greatest need of our day is for the transformative news of the gospel to enliven the cities of the world. Dennis powerfully highlights God's special love for cities, exploring important issues related to city dwelling and offering real-world advice for reaching urbanites. With Christ exalting biblically based insights, this book serves as a rallying cry for a new generation of Christians who are passionate about seeing the kingdom of God take root and flourish in some of the darkest yet most strategic places on earth.

Urban Education, Approaches that Work United States. Congress. House. Committee on Small Business. Subcommittee on Empowerment, 1998. A hearing was held before the Subcommittee on Empowerment of the House Committee on Small Business to build a record of a lot of things that are working in urban education in high-risk zones. In his opening remarks, Representative Souder (Indiana) noted that there is no question but that the best way to combat unemployment and the problems that flow from it is to provide people with the best possible training. For most of the work force, training begins in school. Strengthening basic skills is not exclusively an urban problem, but it is one that is of particular concern in the cities. The purpose of this hearing was not why so many schools are failing, but why some succeed. Five educators who run successful urban schools appeared at the hearing to explain why their schools work. Thaddeus S. Lott Sr., principal of a charter school district in Houston, Texas, described the experiences of a successful elementary school that used an intensive reading program beginning in kindergarten and direct instruction to raise academic achievement. Vera White, principal of a junior high school in the District of Columbia, achieved academic success with a program that focused on student learning and high expectations and that was supported in a partnership with COMSAT. Comments by hearing participants follow these statements. In the second panel discussion of the hearing, Oscar J.

Underwood headmaster of a Christian college preparatory school Indiana spoke about the importance of the educational environment and teacher attitudes Leah White administrator of an urban Christian school Maryland noted the importance of promoting parent participation and the importance of an atmosphere focused on learning William Elliott headmaster of a Christian academy in Philadelphia Pennsylvania emphasized the importance of good relationships between teachers and students and the importance of accountability and high standards Comments from panelists completed the hearing An appendix contains the prepared statements of the panelists and a letter from Governor George Bush Texas about Dr Lott s Houston school SLD

Urban Monks Brother Esteban de Emaus,2019-12-01 Road to Experience There is a radical difference between the spiritual life guided by belief from that which has its foundation in experience But belief is the way to experience Just as doubt precedes belief faith comes before the experience of the divine Mere belief is transformed into faith when it is put into practice when it is lived And if this practice is sustained in a persevering way the experience is accessed When the experience of the divine is lived it is no longer believed it is known The irrefutable proof is lived in the intimacy of the heart certainty is installed This form of evidence is personal and although it tries to be transmitted it can only be translated
