Chukdong,2017-03-25 This text looks carefully at the sociological historical and economic sides of our education systems today Since education is ultimately linked to whose knowledge counts we are also forced to look at the world of Policy studies Policy studies itself should focus on diverse methodologies that guarantee authentic policy development In this way our society can automatically recognize when certain policies are a mere placebo This diagnosis of policy placebo is a pattern that we can see over and over and we should become more aware Policy placebo is when policy is created to make it look like an issue was trying to be resolved or it attempted to solve an issue but the intention was never an altruistic one Then there are some policies that may have good intentions but caused more harm than good *Education Management: Building Student Success* Karma M. Chukdong B.Ed. M.A. M.Ed.,2016-09-28 Education management can seem like a very complex system and topic to examine and this is the reason for the text Everything in the text follows three streams of research a sociology b political science and c economics These three fields are interconnected when trying to improve schools and to be a positive leader in the realm of education management There is no defining definition of educational management since its essence encompasses these diverse disciplines sociology political science and economics As this text will prove the purpose of educational management is to bring students and teachers under positive conditions so high academic achievement can take place This research looked at our education system and its origins This text is written

for policy makers curriculum designers principals heads of departments and deans of colleges who can provide professional development to their staff Staff will be empowered with this compassionate student centered pedagogy that can enhance their teaching and their students performance This text is also organized in a way that can be easily accessible to parents Parents who care so deeply about their child but may not know where to start with long work days and overtime and not having time to truly understand complex systems like education I am certain that the dedicated and passionate parent can benefit from these findings and gain confidence in student teacher interviews no longer intimidated by schools teachers vice principals and principals but can see how true change can happen for their child This text can help them plan and avoid as many obstacles as possible in education for their child making it easier so that their child can soar throughout their high school journey postsecondary school graduate school and in their career of choice in the future This is the intent of the research herein and with hope and certainty this research will achieve all these lofty aims
