Bilorusky,2021-04-21 Cases and Stories of Transformative Action Research builds on its companion book Principles and Methods of Transformative Action Research by describing and analyzing dozens of examples of successful action research efforts pursued in the past five decades by students and faculty of the Western Institute for Social Research Some projects are large scale and some are modest interventions in the everyday lives of those participating Some are formal organizational efforts others are the results of individual or small group initiatives Included are chapters on community needs assessments and innovative grassroots approaches to program evaluation the challenges of improving our decision making during the crisis of the COVID 19 pandemic strategies of intellectual activism in addressing the growing problem of workplace bullying action research to preserve and share the history of the Omaha tribe and plans for an innovative school based project based on collaborative action and inquiry between students and Artificial Intelligence In addition there are a number of detailed stories about the use of transformative action research in such areas as somatic and trauma counseling ethnic studies health disparities gender differences grassroots popular education and the improvement of statewide steps for preventing child abuse among many others This book can serve as an undergraduate or graduate social sciences text on research methods It is also a guidebook for action oriented research by academics professionals and lay people alike Value Chain Struggles Jeff Neilson,Bill Pritchard,2011-07-26 Adopting a global value chain approach Value Chain Struggles investigates the impact of new trading arrangements in the coffee and tea sectors on the lives and in the communities of growers in South India Offers a timely analysis of the social hardships of tea and coffee producers Takes the reader into the lives of growers in Southern India who are struggling with issues of value chain restructuring Reveals the ways that the restructuring triggers a series of political and economic struggles across a range of economic social and environmental arenas Puts into perspective claims about the impacts of recent changes to global trading relations on rural producers in developing countries

Trust-Based Observations Craig Randall,2020-07-30 The results are in observations are not improving teaching and learning Pertinently the Gates Foundation s recently completed effort to improve student outcomes through enhancing the

teacher evaluation process failed to achieve substantive improvement The way observations are currently designed serve as an obstacle to teacher risk taking Teachers fear negative evaluations when their pedagogy is rated and they lack faith in being supported by supervisors because a trusting relationship between them and their observer has not been built Trust Based Observations Maximizing Teaching and Learning Growth is a schema changing evaluation model that understands people perform at their best when they feel safe and supported It begins with twelve 20 minute observations per week followed by collegial conversations driven by reflective questions sharing observed teaching strengths and the building of safe and trusting relationships with teachers Add the elimination of rating pedagogical skills and replace it with rating mindset and teachers trust When teachers fully embrace risk taking and innovation it leads to remarkable teaching transformations and improved student learning
