Phinehas; or, Scripture paramount. [A treatise directed against certain geological hypotheses.] ,1860

Why Buddhism? the Evil of Religion Joseph T. Arellano,2004-04 This work supports the proposition that the eradication of religion will make us live as one and there is only one way to remove religion and that is to remove the need for it Armed only with reason this work will prove that due to ignorance religion is just an invention to fill a need This work has three segments The first explores from the point of view of a Christian practicing Pagan the process on how myth became reality It will prove that God was invented and re-invented perpetually for necessity and convenience It is that need that gave the bible its religious relevance Understood with a naked mind the bible is far from being just a religious document but a political one This work explores why religion and politics cannot and will not separate Hence unavoidably it dipped its hands into one painful political issue the Israeli Palestinian conflict The second part elucidates that if the foundation is a myth it only follows that what was founded on it Jesus is a lie It will give proof to the fact that the New Testament was manipulated to further vested interest Understood with an unconditioned mind that is without the traditional spirituality attached to it it will prove that Jesus is just selfishly scheming to regain his grandfather David's throne it will also prove that Jesus is gay The last part is my way of introducing Buddhism It could shed light to what Western science is exiting themselves about It answers why man will never find the Missing Link It explains how and why advanced civilizations deteriorated to their present state In our fight against virus causing disease we must explore all avenues to defeat it Buddhism offers one Buddhism is not only about science it is also about religion it delves into the reality of a soul Buddhism gives us reason on why we must discriminate on account of race or for any other reason
