Irish affairs provided a marginal but pervasive point of reference for a wide range of canonical authors in England including Wyndham Lewis Virginia Woolf D H Lawrence Graham Greene and Evelyn Waugh and also for many lesser known figures such as Ethel Mannin George Thomson and T H White The book surveys these and other incidental writers within the broad framework of literary modernism an arc seen to run in temporal parallel to Ireland's revolutionary trajectory from rebellion to independence In this context it addresses two distinct aspects of the Irish English relationship as it features in the literature of the time first the uneasy recognition of a fundamental similarity between the two countries in terms of their potential for violent revolutionary instability and second the proleptic engagement of Irish events to prefigure imaginatively the potential course of England's evolution from the Armistice to the Second World War Tracing these effects this book offers a topical renegotiation of the connections between Irish and English literary culture nationalism and political ideology together with a new perspective on the Irish sources engaged by English literary modernism
