Gramática Del Alemán:

Gramática alemana Brigitte Eggelte, 2020-03-02 Esta gramática descriptiva didáctica del alemán se presenta en lengua española para que constituya una eficaz herramienta de trabajo y consulta de las características del sistema lingüístico de la lengua alemana y sea accesible a todos los estudiantes y estudiosos del alemán. A este objetivo contribuye una vasta compilación de ejemplos que acompaña a cada ámbito temático. El objetivo primordial de esta gramática es establecer y relacionar las características morfológicas sintácticas y semánticas de los lexemas, los grupos léxicos y los constituyentes oracionales. La amplitud temática de este objetivo se refleja necesariamente en la organización del manual que se divide en tres partes. La parte A: La formación de palabras y sus funciones se centra en el carácter estructural del alemán que tiene trascendentes consecuencias en la gramática alemana. La parte B: dedicada a las Clases de palabras estudia las características morfológicas, las funciones sintácticas y las relaciones semánticas de todas las clases de palabras y consta de diez capítulos destacando la amplitud del capítulo primero que pone de relieve los muy diversos aspectos verbales. La parte C: está dedicada a la oración. En este contexto las clases de palabras suelen representar elementos sintácticos o constituyentes que realizan una función sintáctica concreta en la oración. En esta relación adquieren gran importancia las realizaciones del predicado y las características y formas de representación de los constituyentes en las oraciones simples y en las complejas. Se presta una atención especial a las características funcionales y formas de representación de las oraciones subordinadas y a las características semánticas de las oraciones circunstanciales. Asimismo se atiende a la posición de los elementos sintácticos funcionales en la oración.

Der kleine Duden - Gramática del alemán Rudolf Hoberg, 2004. Der kleine Duden Gramática del alemán es una gramática de consulta y aprendizaje para los docentes de la lengua alemana y para los estudiantes hispanohablantes. En la adaptación y traducción al castellano se han tenido en cuenta las dificultades específicas de los hispanohablantes. En numerosas ocasiones se mencionan las diferencias de uso y forma en cada idioma: todos los ejemplos están traducidos y existen dos índices amplios: uno en alemán y otro en castellano.
