Service Manual

32cc String Trimmer Power Head

NOTE: These materials are for use by trained technicians who are experienced in the service and repair of outdoor power equipment of the kind described in this publication, and are not intended for use by untrained or inexperienced individuals. These materials are intended to provide supplemental information to assist the trained technician. Untrained or inexperienced individuals should seek the assistance of an experienced and trained professional. Read, understand, and follow all instructions and common sense when working on power equipment. This includes the contents of the product's Operators Manual, supplied with the equipment. No liability can be accepted for any inaccuracies or omission in this publication, although care has been taken to make it as complete and accurate as possible at the time of publication. However, due to the variety of outdoor power equipment and continuing product changes that occur over time, updates will be made to these instructions from time to time. Therefore, it may be necessary to obtain the latest materials before servicing or repairing a product. The company reserves the right to make changes at any time to this publication without prior notice and without incurring an obligation to make such changes to previously published versions. Instructions, photographs and illustrations used in this publication are for reference use only and may not depict actual model and component parts. © Copyright 2005 MTD Products Inc. generation of health professionals in a traditional learning environment throwing out their lesson plans and starting anew. New approaches to teaching and learning were created quickly and without the typical extensive planning which introduced several challenges. However, lessons learned from these approaches have also resulted in increased technology adoption, innovative assessment strategies, and increased creativity in the learning environment. The Handbook of Research on Updating and Innovating Health Professions Education Post Pandemic Perspectives explores the various teaching and learning strategies utilized during the pandemic and the innovative approaches implemented to evaluate student learning outcomes and best practices in non-traditional academic situations and environments. The chapters focus specifically on lessons learned and best practices in health professions education and the innovative and exciting changes that occurred particularly with the adoption and implementation of technology. It provides resources and strategies that can be implemented into the current educational environments and into the future. This book is ideal for inservice and preservice teachers, administrators, teacher educators, practitioners, medical trainers, medical professionals, researchers, academicians, and students interested in curriculum, course design, development of policies and procedures within academic programs, and the identification of best practices in health professions education.
