O'Connor, Andrew Reid, 2003 The discipline of Egyptology has been criticised for being too insular with little awareness of the development of archaeologies elsewhere It has remained theoretically underdeveloped For example the role of Ancient Egypt within Africa has rarely been considered jointly by Egyptologists and Africanists Egypt's own view of itself has been neglected views of it in the ancient past in more recent times and today have remained underexposed Encounters with Ancient Egypt is a series of eight books which addresses these issues The books interrelate inform and illuminate one another and will appeal to a wide market including academics students and the general public interested in Archaeology Egyptology Anthropology Architecture Design and History Geographically Egypt is clearly on the African continent yet Ancient Egypt is routinely regarded as a non-African cultural form The significance of Ancient Egypt for the rest of Africa is a hotly debated issue with complex ramifications This book considers how Ancient Egypt was dislocated from Africa drawing on a wide range of sources It examines key issues such as the evidence for actual contacts between Egypt and other early African cultures and how influential or not Egypt was on them Some scholars argue that to its north Egypt's influence on Mediterranean civilization was downplayed by western scholarship Further afield on the African continent perceptions of Ancient Egypt were coloured by biblical sources emphasizing the persecution of the Israelites An extensive selection of fresh insights are provided several focusing on cultural interactions between Egypt and Nubia from 1000 BCE to 500 CE developing a nuanced picture of these interactions and describing the limitations of an Egyptological approach to them

Mysterious Lands David O'Connor, 2016-06-03 Mysterious Lands covers two kinds of encounters First encounters which actually occurred between Egypt and specific foreign lands and second those the Egyptians created

by inventing imaginary lands Some of the actual foreign lands are mysterious in that we know of them only through Egyptian sources both written and pictorial and the actual locations of such lands remain unknown These encounters led to reciprocal influences of varying intensity The Egyptians also created imaginary lands pseudo geographic entities with distinctive inhabitants and cultures in order to meet religious intellectual and emotional needs Scholars disagree sometimes vehemently about the locations and cultures of some important but geographically disputed actual lands As for imaginary lands they continually need to be re explored as our understanding of Egyptian religion and literature deepens *Mysterious Lands* provides a clear account of this subject and will be a stimulating read for scholars students or the interested public
