Implementing And Managing Egovernment An International Text:

Implementing and Managing eGovernment Richard Heeks, 2005-11-23 The first textbook on information systems to specifically address public sector and government issues Implementing and Managing eGovernment offers a truly international perspective and coverage incorporating hundreds of case studies and case sketches *Implementing and Managing eGovernment* Richard Heeks, 2005-11-23 Check out the companion website at www.sagepub.co.uk/heels Implementing and Managing eGovernment fills an important gap It provides comprehensive coverage of the e government issues faced by managers consultants and other practitioners Richard Heeks draws on international examples to guide readers through crucial e government management issues such as the management of strategy and projects data security quality people money and policies and dealing with political and ethical challenges The second part of the book focuses on the implementation of e government systems It explores activities such as feasibility studies system analysis system design construction and marketing Instructive diagrams synoptic models and case studies underpin the book's content while class and practitioner assessments will help readers monitor their understanding Additional material is also available on a companion Website This book will be welcomed by students pursuing an MPA undergraduates studying public policy and administration and practitioners on government in service training *Implementing and Managing eGovernment* Richard Heeks, 2005-11-23 Check out the companion website at www.sagepub.co.uk/heels Implementing and Managing eGovernment fills an important gap It provides comprehensive coverage of the e government issues faced by managers consultants and other practitioners Richard Heeks draws on international examples to guide readers through crucial e government management issues such as the management of strategy and projects data security quality people money and policies and dealing with political and ethical challenges The second part of the book focuses on the implementation of e government systems It explores activities such as feasibility studies system analysis system design construction and marketing Instructive diagrams synoptic models and case studies underpin the book's content while class and practitioner assessments will help readers monitor their understanding Additional material is also available on a companion Website This book will be welcomed by students pursuing an MPA undergraduates studying public policy and administration and practitioners on government in service training

ECEG2010-Proceedings of the 10th European Conference on E-Government David O'Donnell, 2010-06-17

Enacting Electronic Government Success J. Ramon Gil-Garcia, 2012-02-28 Many countries around the world are investing a great amount of resources in government IT initiatives However few of these projects achieve their stated goals and some of them are complete failures Therefore understanding e government success has become very important and urgent in recent years In order to develop relevant knowledge about this complex phenomenon researchers and practitioners need to identify and assess what are the main conditions variables or factors that have an impact on e government success However before being able to evaluate these impacts it is necessary to define what e

government success is and what some e government success measures are This book presents a review of both e government success measures and e government success factors It also provides empirical evidence from quantitative analysis and two in depth case studies Although based on sound theory and rigorous empirical analysis the book not only significantly contributes to academic knowledge but also includes some practical recommendations for government officials and public managers Theoretically the book proposes a way to quantitatively operationalize Fountain s enactment framework Based on the institutional tradition the technology enactment framework attempts to explain the effects of organizational forms and institutional arrangements on the information technology used by government agencies According to Fountain 1995 2001 the technology enactment framework pays attention to the relationships among information technology organizations embeddedness and institutions This framework is very well known in the e government field but is normally used for qualitative analysis and there is no previous proposal of how to use it with quantitative data The book proposes variables to measure each of the different constructs in this framework and also tests the relationships hypothesized by Fountain s theory Finally using the advantages of the selected quantitative analysis technique Partial Least Squares the study also proposes some adjustments and extensions to the original framework in a theory building effort Methodologically the book reports on one of the first multi method studies in the field of e government in general and e government success in particular This study uses a nested research design which combines statistical analysis with two in depth case studies The study begins with a statistical analysis using organizational institutional and contextual factors as the independent variables An overall score representing e government success in terms of the functionality of state websites is the dependent variable Second based on the statistical results two cases are selected based on their relative fitness to the model residuals and their position in the general ranking of website functionality which includes four different measures In order to complement the results of the statistical analysis case studies were developed for the two selected states New York and Indiana using semi structured interviews and document analysis In terms of the statistical analysis the book constitutes one of the first applications of Partial Least Squares PLS to an e government success study PLS is a structural equations modeling SEM technique and therefore allows estimating the measurement model and the structural model simultaneously The use of this sophisticated statistical strategy helped to test the relationships between e government success and different factors influencing it as well as some of the relationships between several of the factors thus allowing exploring some indirect effects too

EJEG Volume 8 Issue 2 , Knowledge Ecology in Global Business: Managing Intellectual Capital Lytras, Miltiadis D.,Ordóñez de Pablos, Patricia,2009-03-31 Provides ideas on how intellectual capital through emerging technologies can support business performance Covers topics such as competitive strategy human resource management and organizational learning

ECEG2007-Proceedings of the 7th European Conference on e-Government Dan Remenyi, International Conference on Social Science and Management ICSSM 2014 Prof. S. Narayanasamy,2014-03-26 It is my

Electronic Government Maria A. Wimmer, Hans Jochen Scholl, Marijn Janssen, Roland Traunmüller, 2009-08-28

Impacts of the Knowledge Society on Economic and Social Growth in Africa Amoah, Lloyd G. Adu, 2014-03-31 In a world that is essentially digitizing some have argued that the idea of the knowledge society holds the greatest promise for Africa's rapid socio economic transformation Impacts of the Knowledge Society on Economic and Social Growth in Africa aims to catalyze thinking and provide relevant information on the complex ways in which the information age is shaping Africa and the implications that this will have for the continent and the world This premier reference volume will provide policy analysts policymakers academics and researchers with fresh insights into the key empirical and theoretical matters

framing Africa's ongoing digitization *Evaluating Information Systems* Zahir Irani, Peter Love, 2008-05-12 The adoption of Information Technology (IT) and Information Systems (IS) represents significant financial investments with alternative perspectives to the evaluation domain coming from both the public and private sectors. As a result of increasing IT/IS budgets and their growing significance within the development of an organizational infrastructure, the evaluation and performance measurement of new technology remains a perennial issue for management. This book offers a refreshing and updated insight into the social fabric and technical dimensions of IT/IS evaluation together with insights into approaches used to measure the impact of information systems on its stakeholders. In doing so, it describes the portfolio of appraisal techniques that support the justification of IT/IS investments. *Evaluating Information Systems* explores the concept of evaluation as an evolutionary and dynamic process that takes into account the ability of enterprise technologies to integrate information systems within and between organisations. In particular, when set against a backdrop of organisational learning, it examines the changing portfolio of benefits, costs, and risks associated with the adoption and diffusion of technology in today's global marketplace. Finally, approaches to impact assessment through performance management and benchmarking are discussed.

Proceedings of the 2023 Brawijaya International Conference (BIC 2023) Yusfan Adeputera Yusran, Dini Kurnia Irmawati, Rizki Prafitri, Muhammad Pramujito, 2024-10-28 This is an open access book. We proudly present the 2023 Brawijaya International Conference (BIC 2023) as the consecutive series of conferences that is organised and hosted annually by Universitas Brawijaya Indonesia. The BIC 2023 will be held in Lombok, Indonesia, on October 19-21, 2023. The conference committee consists of multi-department of Universitas Brawijaya. The BIC 2023 will present multidisciplinary research findings related to sustainable development goals. The BIC 2023 will be a great opportunity for exchanging ideas and knowledge in all multidisciplinary areas for academicians, scientists, practitioners, and global executives. The event will facilitate a focus group discussion and consultation for the participants, especially stakeholders, to address the current issues and challenges including the future invention and innovation within multidisciplinary areas. The BIC 2023 invites fellow researchers, scientists, students, practitioners, global executives from multidisciplinary areas to participate and gather in this event to share and discuss the related research results and findings from all multidisciplinary areas. You should not miss the great opportunity to establish partnership and acquire tremendous knowledge within the BIC 2023. *EJEG Volume 8 Issue 1* ,

Catalyzing Development through ICT Adoption Harleen Kaur, Ewa Lechman, Adam Marszk, 2017-06-05 This book examines the role that Information and Communication Technologies (ICTs) play in growth and economic development promotion specifically for developing countries. It highlights multiple methodologies for quantifying the impact of ICTs. This includes quantitative and qualitative methods but also novel conclusive and informative methodological approaches for measuring ICTs' influence on economic development. The book highlights trends, perspectives, and success stories for different developing countries. ICTs bring new business models, innovations, capital, labor substitution, improved goods and services to

developing markets Because they can spread rapidly with little cost and require minimal skills for usage ICTs create a solid background for social and economic gains They enable significant reduction in information asymmetries which improves access to economic activities for multitude of agents fostering participation inter alias in labor market of disadvantaged societal groups After almost two decades of rapid diffusion of ICT in developing world this book seeks to assess the real benefits and consequences of ICTs adoption in developing countries The chapters use broad real world based evidence to provide a better understanding of the precise nature of new technologies and their impact of the country s economy and society

Handbook on ICT in Developing Countries Knud Erik Skouby, Idongesit Williams, Albert Gyamfi, 2022-09-01 The mobile communications market in developing countries is growing at a rapid rate This is evident in the rapid spread of mobile broadband cellular networks such as 3G 4G is also being deployed in developing countries around the world As the global communications market proceeds towards 5G it is evident that developing countries will not be left behind However there are challenges and barriers on the road ahead specific to developing countries To aid policy makers researchers and members of the academia make informed decision that will help the advancement of 5G this handbook provides an insight into the impact of existing mobile cellular networks in some developing countries Topics discussed in this handbook include Digital divide Policy outlook 5G and rural areas 5G readiness Telco Business models Telecom tower pricing Mobile application adoption
