Separate No More: The Long Road to Brown v. Board of Education (Scholastic Focus) Lawrence Goldstone, 2021-01-05 Critically acclaimed author Lawrence Goldstone offers an affecting portrait of the road to the landmark Brown v Board of Education case which significantly shaped the United States and effectively ended segregation Since 1896 in the landmark outcome of Plessy v Ferguson the doctrine of separate but equal had been considered acceptable under the United States Constitution African American and white populations were thus segregated attending different schools living in different neighborhoods and even drinking from different water fountains However as African Americans found themselves lacking opportunity and living under the constant menace of mob violence it was becoming increasingly apparent that segregation was not only unjust but dangerous Fighting to turn the tide against racial oppression revolutionaries rose up all over America from Booker T Washington to W E B Du Bois They formed coalitions of some of the greatest legal minds and activists who carefully strategized how to combat the racist judicial system These efforts would be rewarded in the groundbreaking cases of 1952 1954 known collectively as Brown v Board of Education of Topeka in which the US Supreme Court would decide once and for all the legality of segregation and on which side of history the United States would stand In this thrilling examination of the path to Brown v Board of Education Constitutional law scholar Lawrence Goldstone highlights the key trials and players in the fight for integration Written with a deft hand this story of social justice will remind readers young and old of the momentousness of the segregation hearings
