Heath, Complainant, Vs. lack of initiative in waiting for to morrow would be content if the work consumed half a century What Humboldt prophesied of the Southern Continent as the seat of future civilization what Agassiz predicted of the Andean and the Amazon populations he is sure now will be realized He even reverts to his favorite method of comparing the square miles of Belgium with the square miles of his own South American country whichever one it may be and exhibits the latter s possibilities for the human race by explaining the number of people it can sustain when it shall have as many inhabitants to the square mile as has Belgium Yet while he believes that the destiny of the Southern Continent is at the threshold of realization Yankee impatience only would amuse him Since the interoceanic waterway and all its benefits are to be what matter a few years Time says the Castilian proverb is the element This philosophic Latin view may serve as a curb to fault finding if the construction work on the Canal seems to halt while the engineering obstacles are studied and experiments are made in order to determine the best means to overcome them But though the Spanish American who is of the race that controls the West Coast countries of South America is patient in his waiting for ultimate results he does not fail to grasp the immediate effect All the processes of the economic evolution unroll before his mental vision For Colombia Ecuador Peru Chile and Bolivia the standard already has been set and the goal towards which they must work has been fixed Their national policies and their commercial and industrial growth at once come under the stimulus of the waterway The Panama Canal said the leader of public thought in one of the Republics will precipitate our commercial evolution It is the spring from which will gush the streams of immigration
