IMO Publications Catalogue International Maritime Organization, 2004 *A Study of Ship Manoeuvrability* R. P. Gokarn, 2024-07-15 This book presents various aspects of Ship Manoeuvrability in a form that can be understood without undue effort Beginning with the equations of motion the book describes the main manoeuvring mathematical models with their application in the numerical simulation of various manoeuvres The other topics covered in the book range from manoeuvring model tests and full scale trials through rudder hydrodynamics and design to manoeuvring standards and guidelines This book also discusses ship autopilots and dynamic positioning Finally it provides a description of unconventional rudders and propulsion devices used for manoeuvring The book has more than 180 figures to explain various concepts and 40 exercises with partial solutions to confirm that the reader has understood the subject The book also includes recent developments in the subject and can be a valuable reference for beginners researchers and professionals interested in the field *Simulators for Transportation Human Factors* Mark S. Young, Michael G. Lenné, 2017-07-06 Simulation continues to be a growth area in transportation human factors From empirical studies in the laboratory to the latest training techniques in the field simulators offer myriad benefits for the experimenter and the practitioner This book draws together current trends in research and training simulators for the road rail air and sea sectors to inform the reader how to maximize both validity and cost effectiveness in each case *Simulators for Transportation Human Factors* provides a valuable resource for both researchers and practitioners in transportation human factors on the use of simulators giving readers concrete examples and case studies of how simulators have been developed and used in empirical research as well as training applications It offers useful and usable information on the functional requirements of simulators without the need for any background knowledge on the technical aspects focusing on the state of the art of research and applications in transport simulators rather than the state of the art of simulation technology The book covers simulators in operational terms instead of task simulation modelling and provides a useful balance between a bottom up academic approach and a top down practical perspective *IMO News*, 1990 **Lloyd's Ship Manager**, 1995 *The Electronic Chart Display and Information System (ECDIS): An Operational Handbook* Adam Weintrit, 2009-08-13 Electronic navigation although still relatively new is becoming increasingly more common particularly on commercial vessels This handbook offers a wealth of detailed information about how different charting systems operate and answers the most commonly asked questions regarding electronic charts ENC RNC DNC and electronic chart systems ECD **The Complete Dramatic and Poetic Works of William Shakespeare** William Shakespeare, 1906 **Technology and Human Aspects of Maritime Efficiency and Safety** European Commission.
