In Bad Faith Whats Wrong With The Opium Of The People:

In Bad Faith Andrew Levine, 2011-10-01 For readers interested in political theory and political activism as well as anyone puzzled by the persistence of theistic conviction in the modern world this critique of religious belief provides insightful analysis In light of rational standards for belief acceptance that are universally acknowledged in enlightened circles theistic convictions are deeply problematic Thus it is not surprising that some of the most important heirs of the Enlightenment tradition Ludwig Feuerbach Karl Marx Sigmund Freud and Friedrich Nietzsche wondered implicitly why belief in God persists and even flourishes among those who should and in some sense do know better This book provides fresh insight into the work of those thinkers by reflecting on the explanations they proffered and on their explanatory strategies For all their many differences their respective explanations share a common core and are driven by a similar largely unelaborated normative commitment On Levine's account believers today believe in bad faith in other words they evince a fundamental intellectual dishonesty If only for this reason they merit reproach even in the comparatively rare instances when faith perspectives do more good than harm From this standpoint the author reflects on the liberal turn in the so called Abrahamic religions Judaism Christianity and Islam and depicts liberal religion as a vehicle of exit for those who implicitly acknowledge the untenability of the beliefs they profess yet are unable or unwilling to face this reality squarely He argues that liberal religion is therefore a transitory phenomenon albeit one that has survived for a long time and that is not about to expire soon Levine then faults the religious Left on this account arguing that even in those historically rare conditions where bad faith motivates welcome political engagement it is nevertheless undermined by its deep inauthenticity **Dissent on Core**

Beliefs Simone Chambers, Peter Nosco, 2015-04-23 This volume explores how nine different religious and secular traditions deal with pluralism dissent and the challenges these issues pose Economic Inequality and Morality Richard

Madsen, William M. Sullivan, 2019-08-27 Examining inequality through the lenses of moral traditions Rising inequality has attracted a great deal of attention in recent years from scholars and politicians but the moral dimensions of inequality tend to be ignored Is inequality morally acceptable Is it morally permissible to allow practices and systems that contribute to inequality Is there an ethical obligation to try to alleviate inequality and if so who is obligated to take that action This book addresses these and similar questions not through a single lens of morality but through a comparative study of ethical traditions both secular and religious Western and non Western The moral and political traditions considered are liberalism Marxism natural law feminism Buddhism Judaism Islam Christianity and Confucianism The types of inequality examined include property natural resources products wealth income jobs and taxation The editors open the book with an introduction providing information on contemporary dimensions of the problem of economic inequality and the book concludes with a summary of the perspectives represented Economic Inequality and Morality is unusual in that it addresses similarities and differences on the questions of inequality within and across moral traditions Authors of the individual studies answer a

common set of topic related questions giving the reader a broad perspective on how a broad range of traditions view and respond to inequality Canadian Conservative Political Thought Lee Trepanier, Richard Avramenko, 2023-03-24 This book corrects an imbalance in Canadian political literature through offering a conservative account of Canadian political thought Across 15 chronologically organized chapters and with a mixture of established and rising scholars the book offers an investigation of the defining features and characteristics of Canadian conservative political thought asking what have Canadian conservative political thinkers and practitioners learned from other traditions and in turn what have they contributed to our understanding of conservative political thought today Rather than its culmination Canadian Conservative Political Thought will be the beginning of conservative political thought s recovery and will spark debates and future research The book will be a great resource for courses on Canadian politics history political philosophy and conservatism Canadian Studies and political theory **Higher Reality Therapy** Anthony Falikowski, 2010-01-01 Higher Reality Therapy combines ancient and more recent philosophical traditions both Eastern and Western with modern psychology and newly emerging forms of spiritual practice This book offers a fruitful alternative to people who have not been helped by conventional psychotherapy The Politics of Bad Faith David Horowitz, 1998 The Left in America did not disappear with the fall of the Berlin Wall nor have those who supported the Soviet future learned the lessons of this tragic past Behind the facade of liberalism David Horowitz shows the Left has continued to advance its schemes to redistribute resources according to race sex and class to make Americans wards of the state and to turn Big Government into Big Brother Defying laws of nature and morality in the name of revolutionary principle the Left has even subverted the public health system allowing AIDS to flourish and to kill hundreds of thousands of young men and women *Freedom As a Value* David Detmer, 2013-12-15 This dramatic re evaluation of Sartre s ethical theory establishes its author as a leading American exponent of phenomenology and wins many new followers for Sartre in the English speaking world *Spirituality and Deep Connectedness* Michael C. Brannigan, 2018-09-15 What is spirituality Does it enable us to be better persons Is spirituality related to religion These days is it even relevant On college campuses does it promote student well being Does it further moral growth Can spirituality make a difference in healthcare What about social justice and service to the marginalized This rich collection of essays by respected scholars and practitioners in diverse fields in academic healthcare social justice and interfaith contexts addresses these questions in strikingly profound and meaningful ways Their voices offer alternatives to the prevailing notion of spirituality as a purely private matter and make a case for living spiritually through deep and genuine engagement with others bridging our inherent and original fault line of Self and Other Their keen observations resuscitate the spiritual fabric of defiance against and liberation from forces of oppression which show their face not only through chronic inequities and social injustice but in consumer capitalism s grip on our souls This volume s dispatch to our minds and hearts is timely in an age of looming cynicism pessimism fear and distrust In carving out a renewed sense of what lies at the

heart of living a life of the spirit or spirituality it offers an antidote to our widespread hermeneutic of suspicion None of the authors claims to encapsulate one pure meaning of the spiritual Yet they share one collective voice spirituality is indeed genuine when it calls forth compassion and wears the worn and tangled face of humaneness freeing ourselves from the prison of ego Here we find messages of hope much needed in a time when our society seems increasingly shadowed by dark clouds These essays remind us of what's right in the world

The Backwash of War Ellen N. La Motte, 2019-02-05 Banned in multiple countries for its frank depiction of the horrors of war Ellen N La Motte's *The Backwash of War* is one of the most stunning antiwar books ever published We are witnessing a phase in the evolution of humanity a phase called War and the slow onward progress stirs up the slime in the shallows and this is the Backwash of War It is very ugly Ellen N La Motte In September 1916 as World War I advanced into a third deadly year an American woman named Ellen N La Motte published a collection of stories about her experience as a war nurse Deemed damaging to morale *The Backwash of War* was immediately banned in both England and France and later censored in wartime America At once deeply unsettling and darkly humorous this compelling book presents a unique view of the destruction wrought by war to the human body and spirit Long neglected it is an astounding book by an extraordinary woman and merits a place among major works of WWI literature This volume gathers for the first time La Motte's published writing about the First World War In addition to *Backwash* it includes three long forgotten essays Annotated for a modern audience the book features both a comprehensive introduction to La Motte's war time writing in its historical and literary contexts and the first extended biography of the lost author of this lost classic Not only did La Motte boldly breach decorum in writing *The Backwash of War* but she also forcefully challenged societal norms in other equally remarkable ways as a debutante turned Johns Hopkins trained nurse pathbreaking public health advocate and administrator suffragette journalist writer lesbian and self-proclaimed anarchist

New Critical Approaches to the Short Stories of Ernest Hemingway Jackson J. Benson, 1990-12-12 This companion volume reflects current scholarship and draws together essays that were published during the past decade or written for this collection Back cover

A Treatise of Legal Philosophy and General Jurisprudence Enrico Pattaro, Corrado Roversi, 2016-07-13 *A Treatise of Legal Philosophy and General Jurisprudence* is the first ever multivolume treatment of the issues in legal philosophy and general jurisprudence from both a theoretical and a historical perspective The work is aimed at jurists as well as legal and practical philosophers Edited by the renowned theorist Enrico Pattaro and his team this book is a classical reference work that would be of great interest to legal and practical philosophers as well as to jurists and legal scholars at all levels The work is divided in two parts The theoretical part published in 2005 consisting of five volumes covers the main topics of the contemporary debate the historical part consisting of six volumes Volumes 6-8 published in 2007 Volumes 9 and 10 published in 2009 Volume 11 published in 2011 and Volume 12 forthcoming in 2016 accounts for the development of legal thought from ancient Greek times through the twentieth century Volume 12 *Legal Philosophy in the Twentieth Century The Civil Law*

World Volume 12 of A Treatise of Legal Philosophy and General Jurisprudence titled Legal Philosophy in the Twentieth Century The Civil Law World functions as a complement to Gerald Postema s volume 11 titled Legal Philosophy in the Twentieth Century The Common Law World and it offers the first comprehensive account of the complex development that legal philosophy has undergone in continental Europe and Latin America since 1900 In this volume leading international scholars from the different language areas making up the civil law world give an account of the way legal philosophy has evolved in these areas in the 20th century the outcome being an overall mosaic of civil law legal philosophy in this arc of time Further specialists in the field describe the development that legal philosophy has undergone in the 20th century by focusing on three of its main subjects namely legal positivism natural law theory and the theory of legal reasoning and discussing the different conceptions that have been put forward under these labels The layout of the volume is meant to frame historical analysis with a view to the contemporary theoretical debate thus completing the Treatise in keeping with its overall methodological aim namely that of combining history and theory as a necessary means by which to provide a comprehensive account of jurisprudential thinking

Peter L. Berger on Religion Titus Hjelm,2024-04-30 Peter L Berger on Religion provides an overview and critical assessment of the work of one of the most influential sociologists of the 20th century Situating Berger s writings on religion and secularisation in the broader framework of social constructionism the book argues that neither he nor the research influenced by him consistently followed the constructionist paradigm This assessment is informed by a close examination of The Sacred Canopy 1967 in particular The volume also offers a Berger inspired constructionist framework for the study of religion This book is an excellent resource for students and researchers interested in the intersection of religion and social theory

Philosophy of Religion Anne Jordan,Neil Lockyer,Edwin Tate,2002 In its second edition this text is now fully in line with the new Advanced level specifications and is also suitable for use with the Scottish Higher It provides an accessible and comprehensive look at the study of the Philosophy of Religion The book features self tests and end of unit revision pages while summaries of each topic including conclusion diagrams provide helpful study hints points for discussion and a reminder of key terms

What Is Wrong With the Bible? Charles Giuliani,2018-07-26 The Bible is the number one best selling book of all time No other literary work in history has ever held so many people captive to its claims It is viewed as God s word an infallible moral guidebook and a timeless provider of hope and comfort But is there really any truth to these views Is the Bible really worthy of all this fanfare This book will reveal the ugly truth that the Bible is not at all what its fans think it to be In fact it is the very antithesis thereof And this book will prove all of this by using the bible itself as its own refuter

National Republican ,1950 [Illicit Narcotics Traffic: New York, N.Y. ... on the causes, treatment, and rehabilitation of drug addicts, pursuant to S. Res. 67, September 19, 20, and 21, 1955](#) United States. Congress. Senate. Committee on the Judiciary,United States. Congress. Senate. Committee on the Judiciary.
