**Liminality in Fantastic Fiction** Sandor Klapcsik, 2012-01-09 This critical work diversifies Victor Turner's concept of liminality a basic category of postmodernism in which distinct categories and hierarchies are questioned and limits erode. Liminality involves an oscillation between cultural institutions, genre conventions, narrative perspectives, and thematic binary oppositions. Grounded on this notion, the text investigates the liminality in Agatha Christie's detective fiction, Neil Gaiman's fantasy stories, and Stanislaw Lem's and Philip K. Dick's science fiction. Through an examination of destabilized norms, this analysis demonstrates that liminality is a key element in the changing trends of fantastic texts.

**Liminal Dickens** Valerie Kennedy, Katerina Kitsi-Mitakou, 2016-05-11 Liminal Dickens is a collection of essays which cast new light on some surprisingly neglected areas of Dickens's writings: the rites of passage represented by such transitional moments and ceremonies as birth, christenings, weddings, marriages, and death. Although a great deal of attention has been paid to the family in Dickens's works, relatively little has been said about his representations of these moments and ceremonies. Similarly, although there have been discussions of Dickens's religious beliefs, neither his views on death and dying nor his ideas about the afterlife have been analysed in any great detail. Moreover, this collection arising from a conference on Dickens held in Thessaloniki in 2012, explores how Dickens's preoccupation with these transitional phases reflects his own liminality and his varying positions regarding some main Victorian concerns such as religion, social institutions, progress, and modes of writing. The book is composed of four parts. Part One concerns Dickens's tendency to see birth and death as part of a continuum rather than as entirely separate states. Part Two looks at his unconventional responses to adolescence as a transitional period and to the marriage ceremony as an often unsuccessful rite de passage. Part Three analyses his partial divergence from certain widely held Victorian views about progress, evolution, sanitation, and the provisions made for the poor, and Part Four focuses on two of his novels which are seen as transgressing conventional genre boundaries.

**Microbreweries, Nanobreweries, and Brewpubs** Joseph Peter Klapatch, 2023-05-09 In the mid 1980s the American beer market offered far fewer options than what is available today. When microbreweries began to come onto the scene, distributors and retailers were skeptical of their new beers and did not believe that these new American brews would be able to compete with imports. Newer, smaller brewers also had to overcome antiquated laws and strong consumer brand loyalty to major domestic beers. After years of struggles, microbrewers established a foothold in the American beer market, popularized new and previously underappreciated styles, and set the stage for a massive proliferation of nanobreweries across the country. This book takes a look at these microbreweries, prime examples of American enterprise and innovation, from an industry outsider's perspective. The author explores a select number of small breweries from around the United States, covering their signature brews, histories, and what it took for them to claim their niches in the marketplace.

**Liminality and the Short Story** Jochen Achilles, Ina Bergmann, 2014-12-05 This book is a study of the short story, one of the widest taught genres in English literature.

from an innovative methodological perspective Both liminality and the short story are well researched phenomena but the combination of both is not frequent This book discusses the relevance of the concept of liminality for the short story genre and for short story cycles emphasizing theoretical perspectives methodological relevance and applicability Liminality as a concept of demarcation and mediation between different processual stages spatial complexes and inner states is of obvious importance in an age of global mobility digital networking and interethnic transnationality Over the last decade many symposia exhibitions art and publications have been produced which thematize liminality covering a wide range of disciplines including literary geographical psychological and ethnicity studies Liminal structuring is an essential aspect of the aesthetic composition of short stories and the cultural messages they convey On account of its very brevity and episodic structure the generic liminality of the short story privileges the depiction of transitional situations and fleeting moments of crisis or decision It also addresses the moral transgressions heterotopic orders and forms of ambivalent self reflection negotiated within the short story s confines This innovative collection focuses on both the liminality of the short story and on liminality in the short story

**Outlaw Heroes as Liminal Figures of Film and Television** Rebecca A. Umland, 2016-04-20 Unlike such romanticized renegades as Robin Hood and Jesse James there is another kind of outlaw hero one who lives between the law and his own personal code In times of crisis when the law proves inadequate the liminal outlaw negotiates between the social imperatives of the community and his innate sense of right and wrong While society requires his services he necessarily remains apart from it in self preservation The modern outlaw hero of film and television is rooted in the knight errant whose violent exploits are tempered by his solitude and devotion to a higher ideal In Hollywood classics such as *Casablanca* 1942 and *Shane* 1953 and in early series like *The Lone Ranger* 1949 1957 and *Have Gun Will Travel* 1957 1963 the outlaw hero reconciles for audiences the conflicting impulses of individual freedom versus serving a larger cause Urban westerns like the *Dirty Harry* and *Death Wish* franchises as well as iconic action figures like Rambo and Batman testify to his enduring popularity This book examines the liminal hero s origins in medieval romance his survival in the mythology of the Hollywood western and his incarnations in the urban western and modern action film

**A Critical Companion to Terry Gilliam** Ian Bekker, Sabine Planka, Philip van der Merwe, 2022-11-11 A Critical Companion to Terry Gilliam provides a fresh up to date exploration of the director s films and artistic practices ranging from his first film *Monty Python and the Holy Grail* 1975 to his recently released and latest film *The Man Who Killed Don Quixote* 2018 This volume presents Gilliam as a director whose films weave together an avant garde cinematic style imaginative exaggeration and social critique Consequently while his films can seem artistically chaotic and thus have the effect of frustrating and upsetting the viewer the essays in this volume show that this is part of a very disciplined creative plan to achieve the defamiliarization of various accepted notions of human and social life

**Urban Fantasy** Stefan Ekman, 2024-08-13 The first book length historical and theoretical analysis of the urban fantasy genre

**The Routledge Handbook of Progressive Rock, Metal, and the**

**Literary Imagination** Chris Anderton, Lori Burns, 2025-02-26 This Handbook illustrates the many ways that progressive rock and metal music forge striking engagements with literary texts and themes The authors and their objects of analytic inquiry offer global and diverse perspectives on these genres and their literary connections from ancient times to the modern world from children's literature to epic poetry from mythology to science fiction and from esoteric fantasy to harsh political criticism The musical treatments of these literary materials span the continents from South and North America through Europe and Asia The collection presents critical perspectives on the enduring and complex relationships between words and music as these are expressed in progressive rock and metal The book is aimed primarily at an academic market valuable for second through final year students on undergraduate courses devoted to both popular music and to literary studies and to postgraduate programs and researchers in a range of fields including popular music studies musicology creative music performance and composition songwriting literary studies narrative studies folklore studies science fiction studies cultural studies liberal studies and sociology and for media and history courses that have an interest in the intersection of narratives music and society     Masks in Horror Cinema Alexandra Heller-Nicholas, 2019-10-15 First critical exploration of the history and endurance of masks in horror cinema Written by an established award winning author with a strong reputation for research in both academia and horror fans Interdisciplinary study that incorporates not only horror studies and cinema studies but also utilises performance studies anthropology Gothic studies literary studies and folklore studies     **Netflix's Chilling Adventures of Sabrina** Stephanie A. Graves, Cori Mathis, Melissa Tyndall, 2023-04-21 This book presents interdisciplinary perspectives on Netflix's Chilling Adventures of Sabrina situating the series within contemporary discourses of genre form historical place ideology and aesthetics The essays in this collection argue that the series unique blend of horror the Gothic and melodrama offers a compelling approach to the coming of age narrative and makes CAoS a significant part of the teen television canon     **Clues: A Journal of Detection, Vol. 34, No. 1 (Spring 2016)** Elizabeth Foxwell, 2016-09-19 For over two decades Clues has included the best scholarship on mystery and detective fiction With a combination of academic essays and nonfiction book reviews it covers all aspects of mystery and detective fiction material in print television and movies As the only American scholarly journal on mystery fiction Clues is essential reading for literature and film students and researchers popular culture aficionados librarians and mystery authors fans and critics around the globe     Post-Qualitative Research and Innovative Methodologies Matthew K. E. Thomas, Robin Bellingham, 2020-04-30 This book explores the possibilities of the relationships between theory and method as enacted in post qualitative research The contributors based in Australia Canada the UK and USA use theory and method to disrupt established traditions and create new and alternative possibilities for research in identity agency power social justice space materiality and other transformations Using examples of recent and highly innovative research practices which meaningfully challenge taken for granted assumptions in education and social science the editors and contributors open new ground for other ways of thinking

about doing research in these fields Major theoretical perspectives explored and applied include posthumanism poststructuralism feminist theory ecofeminism new materialism SF and critical theory and the theorists drawn on include Karen Barad Gilles Deleuze and Felix Guattari Mikhail Bakhtin Donna Haraway Michel Foucault Judith Butler Rosie Braidotti Anna Tsing and Stacy Alaimo *Recovering the Monstrous in Revelation* Heather Macumber, 2021-08-30 This book reads Revelation through the lens of the monster Using monster theory Heather Macumber approaches the cosmic beings in John's Apocalypse as other and monstrous regardless of whether they are found in heaven or the abyss with significant attention paid to the monstrous body and how it causes both unease and wonder Intertwined with descriptions of cosmic monsters this book also interrogates the role of John as a maker of horror stories who casts his opponents as the other and monstrous Despite the tendency to view John and the heavenly creatures as the heroes of this apocalyptic tale Macumber aims to recover their own liminal and hybrid characteristics that mark them as monstrous **Big Data, Code and the Discrete City** Silvio Carta, 2019-06-19 Big Data Code and the Discrete City explores how digital technologies are gradually changing the way in which the public space is designed by architects managed by policymakers and experienced by individuals Smart city technologies are superseding the traditional human experience that has characterised the making of the public space until today This book examines how computers see the public space and the effect of algorithms artificial intelligences and automated processes on the human experience in public spaces Divided into three parts the first part of this book examines the notion of discreteness in its origins and applications to computer sciences The second section presents a dual perspective it explores the ways in which public spaces are constructed by the computer driven logic and then translated into control mechanisms design strategies and software aided design This perspective also describes the way in which individuals perceive this new public space through its digital logic and discrete mechanisms from Wi-Fi coverage to self tracking Finally in the third part this book scrutinises the discrete logic with which computers operate and how this is permeating into aspects of city life This book is valuable for anyone interested in urban studies and digital technologies and more specifically in big data urban informatics and public space Young People in the Labour Market Andy Furlong, John Goodwin, Henrietta O'Connor, Sarah Hadfield, Stuart Hall, Kevin Lowden, Réka Plugor, 2017-10-12 Levels of suffering among young people have always been much higher than governments suggest Indeed policies aimed at young workers have often been framed in ways that help secure conformity to a new employment landscape in which traditional securities have been progressively removed Increasingly punitive welfare regimes have resulted in new hardships especially among young women and those living in depressed labour markets Framed by the ideas of Norbert Elias *Young People in the Labour Market* challenges the idea that changing economic landscapes have given birth to a Precariat and argues that labour insecurity is more deep rooted and complex than others have suggested Focusing on young people and the ways in which their working lives have changed between the 1980s recession and the Great Recession of 2008 2009 and its immediate aftermath the book begins by drawing

attention to trends already emerging in the preceding two decades Drawing on data originally collected during the 1980s recession and comparing it to contemporary data drawn from the UK Household Longitudinal Study the book explores the ways in which young people have adjusted to the changes arguing that life satisfaction and optimism are linked to labour market conditions A timely volume this book will be of interest to undergraduate and postgraduate students as well as postdoctoral researchers who are interested in fields such as Sociology Social Policy Management and Youth Studies

Horror Literature and Dark Fantasy Mark A. Fabrizio, 2018-05-16 Horror Literature and Dark Fantasy Challenging Genres is a collection of scholarly essays intended to address the parent whose unreasoning opposition to horror entails its removal from a school curriculum the school administrator who sees little or no redeeming literary value in horror and the teacher who wants to use horror to teach critical literacy skills but does not know how to do so effectively The essays herein are intended to offer opportunities for teachers in secondary schools and higher education to enrich their classes through a non canonical approach to literary study This book is a deliberate attempt to enlarge the conversation surrounding works of horror and argue for their inclusion into school curricula to teach students critical literacy skills Intelligence, Creativity and Fantasy Mário S. Ming Kong, Maria do Rosário Monteiro, Maria João Pereira Neto, 2019-09-30 The texts presented in Proportion Harmonies and Identities PHI INTELLIGENCE CREATIVITY AND FANTASY were compiled with the intent to establish a multidisciplinary platform for the presentation interaction and dissemination of research The aim is also to foster the awareness and discussion on the topics of Harmony and Proportion with a focus on different visions relevant to Architecture Arts and Humanities Design Engineering Social and Natural Sciences and their importance and benefits for the sense of both individual and community identity The idea of modernity has been a significant motor for development since the Western Early Modern Age Its theoretical and practical foundations have become the working tools of scientists philosophers and artists who seek strategies and policies to accelerate the development process in different contexts

**Utopia Between East and West in Hungarian Literature** Zsolt Czigányik, 2023-01-01 This book focuses on the most important utopian and dystopian literary texts in nineteenth and twentieth century Hungarian literature and therefore widens the scope of the traditionally Anglophone canon Utopian studies is becoming increasingly interdisciplinary and this research integrates literary hermeneutics with ideas and methods from political science and the history of ideas In doing so it argues that Hungarian utopianism was influenced by the region's and Hungarian culture's position of permanent liminality between Western and Eastern European patterns of power structures social and political order After a thorough methodological introduction some early modern texts written in Hungary are discussed while the detailed analyses focus on nineteenth century texts written by Bessenyei Madách and Jókai whereas the twentieth century is represented by Karinthy Babits and Szathmari In the interpretations the results of contemporary scholarship is applied particularly the works of Lyman Tower Sargent Gregory Claeys and Fátima Vieira *Questions of the Liminal in the Fiction of Julio Cortázar* Dominic

P. Moran, 2000 The Argentinian writer Julio Cortazar was immersed in one of the most vibrant and revolutionary intellectual scenes of the last century the Paris of the 1950s and 60s This book shows that his work engages with and often foreshadows many of the problems which were to become central to so called poststructuralist philosophy and poetics *Disgust and Desire* Kristen Wright, 2018-01-03 Monsters have taken many forms across time and cultures yet within these variations monsters often evoke the same paradoxical response disgust and desire We simultaneously fear monsters and take pleasure in seeing them and their role in human culture helps to explain this apparent contradiction Monsters are created in order to delineate where the acceptable boundaries of action and emotion exist However while killing the monster allows us to cast out socially unacceptable desires the prevalence of monsters in both history and fiction reveals humanity's desire to see and experience the forbidden We seek write about and display monsters as both a warning and wish fulfilment and monsters therefore reveal that the line between desire and disgust is often thin Looking across genres subjects and periods this book examines what our conflicted reaction to the monster tells us about human culture
