Lishi Tool Manual:

A Manual of Nuclear Medicine Procedures (Penerbit USM) Birendra K. Das, Noreen Norfaraheen Lee Abdullah, Nuclear Medicine is a fast growing specialty The procedures provide quantitative parameters of organ functions required for modern practice of medicine With the development of new machines and increased application of computer software the procedures are under continuous change Some procedures have become outdated or redundant while new methods have been introduced to enhance the quality of information obtained from a particular application Although there are a few books published abroad to inform doctors and technical staff about the procedures a comprehensive source to give quick information about how different tests are performed particularly the new developments and the expected outcome both in normal and abnormal cases has been a long felt need The physician ordering a Nuclear Medicine test also needs to know what patient preparations are required for optimal results how to satisfy the queries of the patient particularly in respect of radiation exposure which sometimes can be a major concern of the patient This manual has been prepared not only to describe technical details of various procedures that are currently practiced in Nuclear Medicine but also to provide quick information for the doctors and health care personnel on how to inform the patients about the investigation for which they are being referred and how to interpret the results Since there is no such comprehensive book published yet in Asia including South East Asia it is likely to be in great demand in the region All students of master s degree M D DRM DMRIT M Sc Nuclear Medicine and technologists already working in various diagnostic centers will likely buy this book General practitioners and specialists who refer patients for different radio isotope investigations may find this book useful for quick reference

professionals design engineers risk managers law enforcement personnel intelligence agents regulators policymakers investigators lawyers and more *Moody's Industrial Manual* ,1997 Covering New York American regional stock exchanges international companies Chinese Culture of Intelligence Keping Wang,2019-02-06 With the rise of China in the 21st century this book offers a trans cultural and thematic study of key Chinese concepts which influence modern day Chinese thinking across the spheres of politics economics and society It reflects on the major schools of Chinese thought including Confucianism Daoism and Zen Buddhism providing a historical perspective on the ideological development of China in terms of the relationship between man and nature social ethics political governance poetry education aesthetic criticism and art theory It also explores primary aspects of Chinese poetics and aesthetics with reference to the interaction between the endogenous theories and their western counterparts Written by a leader in Chinese Aesthetics against the background of both globalization and glocalization at home and abroad this is a key read for all those interested in the cultural philosophical and aesthetic underpinnings of contemporary China **Dougong** Alexandra Harrer,2025-07-31 This is the first English language study devoted to dougong the block bracket cluster widely regarded as the epitome of traditional Chinese architecture For almost two millennia dougong have been central to the multipartite frame structure of wooden buildings connecting columns with beams supporting projecting eaves and providing resistance to earthquake damage They have enabled and required builders to ensure both the functionality and the moral dimension of their designs through the thoughtful use of appropriately graded timbers and corresponding methods of modular design that determine the size and quality of a building in keeping with the social standing of its owner Richly illustrated with original high quality photographs and drawings this book explores the engaging story of dougong as technical artifacts that embody Chinese culture Alexandra Harrer delves into the previously unresolved relationship between standard dougong and their regional and local variations in the rhetoric of Chinese construction offering an alternative to sociopolitical caste as a means of interpreting these differences She untangles the lengthy selection process and trial and error development of the block bracket cluster before codification to reveal how design idiosyncrasies derived from an unlikely combination of legal codes and ethical imperatives For example dougong with arms projecting at a 45 or 60 degree angle from the wall plane long dismissed as unorthodox are shown to be a subtle design expression that yields to authority while it seeks to exploit archi cultural standards Harrer argues that the ethical dimensions of graphic shapes and the culturally charged space that dougong occupy are key to understanding this creative process **How to Make a Mao Suit** Antonia Finnane,2023-08-03 When the People's Republic of China was founded in 1949 new clothing protocols for state employees resulted in far reaching changes in what people wore In a pioneering history of dress in the Mao years 1949 1976 Antonia Finnane traces the transformation using industry archives and personal stories to reveal a clothing regime pivoted on the so called Mao suit The time of the Mao suit was the time of sewing schools and sewing machines pattern books and homemade clothes It was also a time of close economic

planning when rationing meant a limited range of clothes made usually by women from limited amounts of cloth In an area of scholarship dominated by attention to consumption Finnane presents a revisionist account focused instead on production How to Make a Mao Suit provides a richly illustrated account of clothing that links the material culture of the Mao years to broader cultural and technological changes of the twentieth century

The A to Z of the Chinese Cultural Revolution Guo Jian,Yongyi Song,Yuan Zhou,2009-09-17 The Cultural Revolution in the People's Republic of China started in 1966 and lasted about a decade This revolutionary upsurge of Chinese students and workers led by Mao Zedong wreaked havoc in the world's most populous country often turning things upside down and undermining the party government and army while simultaneously weakening the economy society and culture Tens of millions of people were killed injured or imprisoned during this period and relatively few benefited aside from Mao Zedong and the Gang of Four the group that would eventually receive the blame for the events of the Cultural Revolution Given the turbulence and confusion it is hard to know just what happened The A to Z of the Chinese Cultural Revolution tackles this task First in an extensive chronology which traces the events from year to year and month to month then in an introduction puts these events in context and helps to explain them But most importantly the bulk of the information is provided in a dictionary section with numerous cross referenced entries on important persons places institutions and movements A bibliography points to further sources of information and a glossary will help those researching in Chinese
