marketing. That's the new method. It is a way of selling where the product is sold not in the local market but through their own businesses through the product review of the network. They get rid of the local market but also the sales of the product through the business. This is the driving force in the business where people who want to sell the product through the standard network marketing system is to build a structure of the business and then the successful business partners then the monthly income is likely to earn. That structure will vary from month to month but their monthly income is up to the number of partners in the correct position in the structure to maximize the monthly benefit. That is the reason there are no guarantees in this business and that network marketing is not a get-rich-quick scheme. In general, the return is proportional to the effort you put into the business.

A Guide To Network Marketing Surya Sinha, 2008-01-01 NETWORK MARKETING AND CALL OF THE FUTURE. We should hear the call of the future that network marketing brings with itself. Major companies do not want middlemen such as stockists, agents, distributors, wholesalers, and retailers to come between them and their customers. They want to connect directly with the consumer, and they want to pass on the discounts directly to the end consumer, which were earlier being given to stockists, agents, distributors, wholesalers, and retailers. Many major companies worldwide have understood this fact, and they are carrying on with their business through network marketing. We do not need to look far because leading Indian companies have accepted the truth that the best way of selling products in the future is through network marketing. Some

companies have already adopted this system and their products are being sold in many major Indian cities In the near future products would be sold in every city town and village through network marketing Moreover there are many other companies which are making preparations to adopt this beautiful system So it could be said that the network marketing business has a very bright future
