A Vehicle for Change Éamon Ó Cofaigh, 2022-05-13 An Open Access edition of this book will be available on the Liverpool University Press website and the OAPEN library Since its invention the automobile has been systematically consumed to become part of the fabric of twentieth and twenty first century society its impact and perception making the car an accurate gauge of changing cultural norms and values As it grew in popularity the automobile conditioned the very texture of modern life and the particularly car centred society of contemporary France is an especially apt locus for examination The ubiquity of the automobile across all social strata provides us with a defined lens through which to examine the evolution of French society in the modern and post modern eras Taking the Second World War as a pivotal moment in recent French history this book demonstrates how the automobile was both consumed and fetishized in distinct ways before and after this conflict The ways in which society evolved from the pre to the post war period allow us to view French culture through the prism of the automobile as it embodied technological and social progress in twentieth century France The present volume seeks to explore and interrogate the processes of representation and mediation inherent in the evolving patterns of automobile consumption and their subsequent impacts on local and national identity framed by a detailed case study centred on France from the late nineteenth century to the oil crisis of the early 1970s

Narrow Gauge in the Ypres Sector Martin J B Farebrother,Joan S Farebrother,2024-06-06 The Ypres sector of the Western Front was held predominantly by the British and Dominion Armies from 1914 to 1918 The Ypres Salient at the centre of this sector was one of the most intensively fought over single locations of the First World War By the end of 1917 the sector was full of railways dumps camps and other facilities Much was lost in the German advance in April 1918 but from September 1918 the German Army was driven eastwards until the Armistice Although Ypres and most of the forward areas are in Belgium much of the support area is in northern France In this book the meter gauge networks of both countries established before the First World War are examined with their uses and extensions during the War The build up of light 60cm gauge railways from 1916 to 1918 is described with an assessment of the contribution of both narrow gauges to the war effort After the war the light railways in this sector were generally used only for short term clearing up and salvage The meter gauge railways in Belgium were rebuilt or repaired Those in France had been less affected The story is followed to the closure of the last of these railways This book is a companion volume to those on the Arras Sector 2015 and the Somme Sector 2018 It refers to other previous works on British French and Belgian railways especially during the First World War but contains sufficient information to stand alone

Paris and the River Seine Hunt Janin,Nicole Sheehan,2024-04-10 The intertwined histories of Paris and of the River Seine are interesting but complicated It is the Seine however with all its ports bridges boats commerce monuments and vistas that has always been the keystone in the arch of Paris life both in the past and now in the present The great French medievalist Jean Favier 1932 2014 summed up its story in just six words Paris is born of the Seine Paris may be known today as The City of Light but like most big cities it also has a sordid side This book introduces to the reader not only the rich and the famous of Paris but also some of the unknown people of the Seine These latter include traders police officers millers fishermen charlatans monkey handlers jugglers water carriers and the homeless men searching through the cold mud of the Seine trying to find a small gold ornament of some kind lost by a rich traveler passing by in a boat

French Global Christie McDonald,Susan Suleiman,2010-10-25 Recasting French literary history in terms of the cultures and peoples that interacted within and outside of France s national boundaries this volume offers a new way of looking at the history of a national literature along with a truly global and contemporary understanding of language literature and culture The relationship between France s national territory and other regions of the world where French is

spoken and written most of them former colonies has long been central to discussions of Francophonie Boldly expanding such discussions to the whole range of French literature the essays in this volume explore spaces mobilities and multiplicities from the Middle Ages to today They rethink literary history not in terms of national boundaries as traditional literary histories have done but in terms of a global paradigm that emphasizes border crossings and encounters with others Contributors offer new ways of reading canonical texts and considering other texts that are not part of the traditional canon By emphasizing diverse conceptions of language text space and nation these essays establish a model approach that remains sensitive to the specificities of time and place and to the theoretical concerns informing the study of national literatures in the twenty first century

Owens weaves a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and gripping novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
