Emerging Visions of the Aesthetic Process Gerald C. Cupchik, Janos László, 1992-09-25 Emerging Visions of the Aesthetic Process explores the processes underlying aesthetics and play from the perspectives of psychologists philosophers and semiologists It reveals the different ways in which scholars think about the following questions 1 What is the origin of the creative process 2 How do biological social and cognitive processes shape the activities of artists and the responses of viewers 3 How does literary activity draw on our experiences of everyday life and how is it tied to other kinds of media 4 How does play affect the process of growth from childhood to adulthood The contributors consider artistic literary and play activity from its most biological roots through individual cognitive and emotional processing to its expression at the social level Emerging Visions of the Aesthetic Process offers a stimulating basis for the discussion of aesthetic processes and will serve as an integrative comprehensive treatise on the topic for researchers and students American Art Directory 2009 National Register Publishing, 2008
