

Mesopotamia

Between the Tigris and Euphrates rivers in the Middle East lies a fertile land once called Mesopotamia. Mesopotamia, in fact, means "land between the rivers." Today, most of this region makes up the nation of Iraq.

Mesopotamia was part of a larger area referred to as the Fertile Crescent. The Fertile Crescent extends from the eastern end of the Mediterranean Sea in a huge arc to the Persian Gulf. In this narrow strip of land, eight great civilizations rose and fell between the years 3000 B.C. and 331 B.C.

Unlike Egypt, which was protected by natural barriers, Mesopotamia lay open to invaders. Wave after wave of ancient peoples moved into the area over a period of roughly three thousand years, each conquering the other in turn. The first inhabitants were the Sumerians; the last were the Persians. Each of the civilizations of Mesopotamia made lasting contributions to western civilization.
