Keeping Watch Monitoring Technology And Innovation In Un Peace Operations:

Keeping Watch A. Walter Dorn, 2013 Knowledge is power In the hands of United Nations peacekeepers it can be a power for peace Lacking knowledge peacekeepers often find themselves powerless in the field unable to protect themselves and others This book explains how technologies can increase the range effectiveness and accuracy of United Nations observation It also identifies potential problems and pitfalls with modern technologies and the challenges to incorporate them into the United Nations system It examines the few cases of technologies effectively harnessed in the field and offers creative recommendations to overcome the institutional inertia and widespread misunderstandings about how technology can complement human initiative in the quest for peace in war torn lands **Multidisciplinary Futures of UN Peace**

Operations Alexander Gilder, David Curran, Georgina Holmes, Fiifi Edu-Afful, 2023-09-19 Bringing together multidisciplinary perspectives on the future of UN peace operations this book explores the interrelated dynamics of UN peace operations and peacebuilding practices through the lenses of conflict resolution protection and accountability The collection includes coverage of issues ranging from strengthening partnerships between regional institutions and the UN improving UN policing and stabilisation mechanisms the application of new technologies in peace operations and implementing security sector reform to ending sexual exploitation and abuse and enhancing the protection of children Authors place people at the centre of peacekeeping by interrogating current and past UN initiatives chart how peacekeeping is evolving in response to changes in global security assess reform and norm change within missions themselves and offer original perspectives on the future of UN peace operations Contributions also include new and innovative theoretical and empirical research located across multiple disciplines including political science history law gender studies and criminology **Air Power in UN Operations**

A. Walter Dorn, 2016-03-23 Air power for warfighting is a story that s been told many times Air power for peacekeeping and UN enforcement is a story that desperately needs to be told For the first time this volume covers the fascinating range of aerial peace functions In rich detail it describes aircraft transporting vital supplies to UN peacekeepers and massive amounts of humanitarian aid to war affected populations aircraft serving as the eyes in sky to keep watch for the world organization and combat aircraft enforcing the peace Rich poignant case studies illuminate the past and present use of UN air power pointing the way for the future This book impressively fills the large gap in the current literature on peace operations on the United Nations and on air power generally **PeaceTech: Digital Transformation to End Wars** Christine

Bell, 2023-12-30 Why are we willing to believe that technology can bring about war but not peace PeaceTech Digital Transformation to End War is the world s first book dealing with the use of technological innovation to support peace and transition processes Through an interwoven narrative of personal stories that capture the complexity of real time peace negotiation Bell maps the fast paced developments of PeaceTech and the ethical and practical challenges involved Bell locates PeaceTech within the wider digital revolution that is also transforming the conduct of war She lays bare the double

disruption of peace processes through digital transformation and through changing conflict patterns that make processes more difficult to mount Against this backdrop can digital peacebuilding be a force for good Or do the risks outweigh the benefits PeaceTech provides a 12 Step Manifesto laying out the types of practice and commitment needed for successful use of digital tools to support peace processes This open access book will be invaluable primer for business tech entrepreneurs peacebuilders the tech community and students of international relations informatics comparative politics ethics and law and indeed for those simply curious about peace process innovation in the contemporary world

Perspectives on Military Intelligence from the First World War to Mali Floribert Baudet, Eleni Braat, Jeoffrey van Woensel, Aad Wever, 2017-07-01 With a foreword by Michael Kowalski Chairman of the Netherlands Intelligence Studies Association Many intelligence practitioners feel that the statutory footing on which intelligence agencies have been placed forms an impediment to confronting unprecedented contemporary challenges On the basis of case studies spanning the period from the First World War to the present this book argues that while the intelligence community in the era of globalization has indeed come to face new and complex challenges that require adaptation operating in demanding and changing environments is not new at all This book questions the conventional wisdom of 9 11 or the end of the Cold War as caesurae It also argues that the ability to adapt innovate question and learn from past experience is crucial for the success of intelligence organizations rather than ever expanding funding Agencies ability to reflect adapt and learn from experience determines their subsequent capability to deliver One key development resulting from globalization is the marked increase in cooperation between intelligence agencies of different countries on the one hand and between investigative agencies and intelligence agencies on the other This has led to concerns over human rights and privacy and to increased calls for accountability and improved oversight as the increase in cooperation between organizations operating globally also provides scope for the circumvention of domestic restrictions This book proposes an instrument to assess the effectiveness of existing accountability arrangements and offers new insights into the role of military intelligence in a number of crises e g the 1962 Cold War confrontation over Western New Guinea and the functioning of intelligence in peacekeeping operations ranging from Srebrenica to Mali Thematically comprehensive it offers a mixture of historical legal operational and policy aspects analyzed through the lens of institutional learning bringing together academic and practitioners perspectives The focus lies not only on the familiar Anglo Saxon experience but also on cases from India the Netherlands South East Asia Bosnia Lebanon and Mali The book is aimed at both scholars and practitioners studying and or working in the field of civil and military intelligence and those involved in international relations and international humanitarian law human rights law It brings together contributions from authors who spoke at the Conference to commemorate the 100th anniversary of the Dutch

Military Intelligence and Security Service organized by the Netherlands Intelligence Studies Association NISA and from a number of authors who were specifically invited to participate About the editors Floribert Baudet is Associate Professor of Strategy at the Netherlands Defence Academy in Breda Eleni Braat is Assistant Professor at the Department of History and Art History at Utrecht University Jeoffrey van Woensel is a military historian who works at the Veteraneninstituut in Doorn and Aad Wever is an independent scholar who formerly worked at Saxion University of Applied Sciences in Enschede and Ferris State University MI USA and who is now retired Specific to this book Offers a mixture of historical legal operational and policy aspects analyzed through the lens of institutional learning Brings together academic and practitioners perspectives Focusses not only on the familiar Anglo Saxon experience but also presents cases from India the Netherlands South East Asia Bosnia Lebanon and Mali The Oxford Handbook of National Security Intelligence Loch K.

Johnson, Regents Professor Emeritus of International Affairs Loch K Johnson, 2025-10-27 This is a book about national security intelligence NSI a phrase referring to the activities of a nation s secretive government agencies Foremost among these activities is the collection and analysis of information that might provide policy officials with timely accurate and unbiased knowledge of potential threats and opportunities a decision advantage Examined as well are the intelligence responsibilities of covert action and counterintelligence Covert action refers to the use of hidden operations to advance a nation s interests in world affairs activities that include propaganda political actions economic sabotage and paramilitary operations Counterintelligence requires a nation s secret services to protect its own secrets from being stolen and to help shelter the homeland from attack by hostile intelligence services terrorist organizations and domestic subversives Explored too is a fundamental challenge faced by democratic nations keeping their secret agencies accountable to the law and ethical values This vital task involves the executive and lawmaking divisions of government plus the intelligence agencies themselves to carry out programs that help ensure the legality and morality of spy operations The era of new and more serious intelligence accountability over intelligence activities began in earnest during 1975 with the Church Committee inquiries and continues today The ongoing search continues in the United States the United Kingdom Canada and several other democracies for the proper balance between the close supervision of intelligence under the law on the one hand and sufficient executive discretion to permit the effective conduct of vital intelligence missions against foreign autocrats and domestic insurrectionists on the other hand Provided by publisher Providing Peacekeepers Alex J. Bellamy, Paul D.

Williams, 2013-02-28 Providing Peacekeepers analyzes the factors which encourage or discourage states from contributing their soldiers to serve in United Nations peacekeeping operations It focuses on the UN s experiences during the twenty first century and does so through four thematic and sixteen case study chapters **The UN at War** John Karlsrud, 2017-11-26 This book is a critical political and institutional reflection on UN peace operations It provides constructive suggestions as to how the UN and the international system can evolve to remain relevant and tackle the peace and security challenges of the

21st century without abandoning the principles that the UN was founded upon and on which the legitimacy of UN peace operations rests. The author analyses the evolving politics on UN peace operations of the five veto powers of the UN Security Council as well as major troop contributing countries and western powers. He investigates the move towards peace enforcement and counter terrorism and what consequences this development may have for the UN. Karlsrud issues a challenge to practitioners and politicians to make sure that the calls for reform are anchored in a desire to improve the lives of people suffering in conflicts on the ground and not spurred by intra organizational turf battles or solely the narrow self interests of member states. Finally he asks how the UN can adapt its practices to become more field and people centered in line with its core primary commitments of protecting and serving people in need.

Revitalizing the United Nations Tapio Kanninen, John Torpey, 2025-10-30. This book explores whether the United Nations UN is relevant in resolving wars when the permanent members of the UN Security Council are directly or indirectly involved. It examines solutions to major wars by applying and testing the UN's vast experience in mediating and deploying peacekeeping, demilitarization, truce monitoring, UN temporary administration and other tools. While some observers see the organization in deep decline as the Security Council cannot agree to stop the wars in Ukraine and Gaza, the expert contributors to this volume make the case that until the start of this century the UN played a critically important role in resolving and freezing major conflicts and the renewal of the organization could be based on these and other successful precedents. This volume will be of interest to scholars and students of global governance, security studies and the history of the UN in the maintenance of international peace and security. It will also be of great interest to practitioners at the UN and its partner organizations as well as to diplomats around the world.

Contemporary Social and Political Aspects of the Cyprus Problem Michalis Kontos, Jonathan Warner, 2016-08-17. In today's world the issue of Cyprus is notable for all the wrong reasons because of the duration of the divisions in Cyprus itself between Greek Cypriots and Turkish Cypriots formalized since 1983 by a disputed international border across the island because of the involvement of Greece and Turkey for which the hyphenated Cypriot communities form proxy battalions and because of the failure of the United Nations longstanding efforts to resolve the conflict. Much of the discussion in the book revolves around the difficulty of producing viable constitutional and civic arrangements in an

The Good Drone Kristin Sandvik, Maria Jumbert, 2016-08-25 While the military use of drones has been the subject of much scrutiny the use of drones for humanitarian purposes has so far received little attention As the starting point for this study it is argued that the prospect of using drones for humanitarian and other life saving activities has produced an alternative discourse on drones dedicated to developing and publicizing the endless possibilities that drones have for doing good Furthermore it is suggested that the Good Drone narrative has been appropriated back into the drone warfare discourse as a strategy to make war more human This book explores the role of the Good Drone as an organizing narrative for political projects technology development and humanitarian action Its contribution to the debate is to take stock of the multiple logics and rationales according to which drones are good with a primary objective to initiate a critical conversation about the political currency of good This study recognizes the many possibilities for the use of drones and takes these possibilities seriously by critically examining the difference the drones functionalities can make but also what difference the presence of drones themselves as unmanned and flying objects make Discussed and analysed are the implications for the drone industry user communities and the areas of crisis where drones are deployed
