Lost Ancient Technology Of Egypt:

Lost Ancient Technology of Egypt Brien D. Foerster, 2014-08-21 The history of Egypt is of course a rich one dating back at least 5000 years to the first of the Pharaohs who created what was to be remembered through their works and deeds especially in stone Among their most famous achievements are the Great Pyramids of the Giza Plateau and the Sphinx However what if evidence strongly suggests that some of these great works were in fact created thousands of years before the dynastic Egyptians and that the Pharaohs simply inherited and renamed them This book is a journey from the southern most area of Egypt all the way to the Giza Plateau Along the way many stone structures were examined that appeared to have been at least partially created using advanced technologies that the Pharaohs simply did not have technologies that in some cases appear superior to our own Geologists stone masons engineers and other professionals were consulted in order to create this work along with experts on the oral traditions of this extremely ancient land and the results will surprise you Clearly there was a civilization before the Pharaohs who had advanced technologies and these people were called the Khemitians

Lost Ancient Technology of Egypt Brien Foerster, 2018-07-05 The history of Egypt as taught to us is not complete There are clearly stone structures which the dynastic people could not have constructed and this volume 2 of a series I show obvious examples of why a much older and technologically advanced civilization existed in ancient Egypt long before the pharaohs

Lost Ancient Technology Of Peru And Bolivia Brien Foerster, 2012-11-30 Ancient Peru and Bolivia like Egypt contain enigmas and mysteries especially in stone which most conventional scholarship can't explain Rather than simply being the exclusively the works of cultures such as the Inca there are many megalithic wonders which defy both the conventional time lines and known levels of technology attributed to the ancient people of South America The most glaring example is most likely Puma Punku near the shore of Lake Titicaca in Bolivia which hints at not only being several thousand years old but also seems to have been achieved using what we would call high level machine technology There are also many sites in Peru and especially near the city of Cusco that also show the hall marks of having been made by cultures using technology supposedly not known by cultures such as the Inca A massive collection of photographic and detailed analysis is contained in this book as well as on site observations by leading engineers

Lost Ancient High Technology of Egypt Brien Foerster, 2015-09-28 The history of Egypt is of course a rich one dating back at least 5000 years to the first of the Pharaohs who created what was to be remembered through their works and deeds especially in stone Among their most famous achievements are the Great Pyramids of the Giza Plateau and the Sphinx However what if evidence strongly suggests that some of these great works were in fact created thousands of years before the dynastic Egyptians and that the Pharaohs simply inherited and renamed them This book is a journey from the southern most area of Egypt all the way to the Giza Plateau Along the way many stone structures were examined that appeared to have been at least partially created using advanced technologies that the Pharaohs simply did not have technologies that in some cases appear superior to our own

Geologists stone masons engineers and other professionals were consulted in order to create this work along with experts on the oral traditions of this extremely ancient land and the results will surprise you Clearly there was a civilization before the Pharaohs who had advanced technologies and these people were called the Khemitians *The Civil War That Destroyed The World's Greatest Ever Civilization* Jim Hendleman, 2022-01-05 This is the final sequel to the Jaredite's civilization What the Prophet Ether Couldn't Tell Us 1 and 2 This book concludes my trilogy of the Jaredite civilization and enumerates some of their many achievements and accomplishments The Jaredite civilization is first mentioned within the Book of Mormon in Ether 1:42-44 Ether was later directed by God to remove everything about them save for their earliest beginnings at the Tower of Babel in Iraq and a few brief tales of their spiritual trials and wars up to their final civil war Book 3 discusses some of the known causes of their civil war and is able to go into some detail about how the war was fought despite a decided lack of historical references This is primarily because Zirchen wrote about very ancient Sumerian and Mesopotamian epic poems that were likely only partially translated into English from the original Sanskrit The original authors elaborated to some extent on how our original fourth planet was caused to explode and become our asteroid belt It seems that the Jaredite physics bordered on magic but only from the twenty-first century perspective They had weaponized the various components of weather such as lightning thunder wind rain etc and used these components to destroy Tiamat our original fourth planet and its total population The bad guys sought nothing less than total destruction and annihilation of the entirety of the Jaredite civilization and Mormonism They used nuclear weapons in a manner designed to kill the most people starve out those they couldn't get to and rid the world of our religion once and for all This is obvious from their early morning sneak attack their nuclear obliteration of the Jaredite capital city in the New York area and their wanton nuclear destruction of Jaredite people and efforts within and throughout Egypt and in other parts of our planet Mainstream archaeology refuses to address this civilization because it would reveal their canards about evolution their false narrative about the origin of man and their totally inaccurate dateline The Jaredites settled and colonized South and North America Lemuria Antarctica the British Isles and most of Western Europe plus the lands of China and India For nearly 2,530 years they maintained a solar system wide civilization Their structures and domed cities are on every planet save Jupiter and Saturn and all the larger moons such as Ganymede and our Luna My research has uncovered many details of Jaredite life and their physical characteristics that the prophet Ether was not allowed to tell us The Jaredites built all of Egypt not the Egyptians Their Hindu colony fought at least two ancient internal nuclear wars They colonized throughout our entire solar system most moons and most planets have their cities or outposts mainly covered by seven mile high glass domes except Jupiter and Saturn These two planets each have possible Star War size moons that easily could be artificial space stations Mars used to be a moon to its now exploded primary Tiamat which is now the asteroid belt Their Martian cities are so immense that New York City and Shanghai combined wouldn't be considered a nickel in a handful of change in comparison to them Jaredite

leftovers are all over Earth if one knows when to look for them As reflected by the European Space Agency the Martian northern city covering Mars North Pole appears to be far larger than Japan And their final long drawn out death *What The Prophet Ether Couldn_t Tell Us: Book 2 of 3* Jim Hendleman,2021-04-13 BACK COVER The sequel to the Jaredite s Civilization What the Prophet Ether couldn t Tell Us is finally out Book III to shortly follow Book II tells of the life and times of the Jaredites the greatest civilization to have ever lived on Planet Earth It details their earliest beginnings and enumerates some of their many achievements and accomplishments It is first mentioned within the Book of Mormon in Ether 1 42 44 Ether was later directed by God to remove everything about them save for their earliest beginnings at the Tower of Babel in Iraq and a few brief tales of their spiritual trials and wars up to their final Civil War Mainstream Archaeology refuses to address this civilization because it would reveal Archaeology s canards about evolution and their false narrative about the Origin of Man The Jaredites settled and colonized South and North America Lemuria Antarctica The British Isles and most of western Europe plus the lands of China and India For nearly 2 530 years they maintained a world wide civilization My research has uncovered many details of Jaredite life and their physical characteristics that the prophet Ether was not allowed to tell us They built all of Egypt Their Hindu colony fought at least two internal nuclear wars They colonized throughout our entire Solar System most moons and all the planets have their cities mainly covered by 7 mile high glass domes except Jupiter and Saturn These two planets each have possible Star War size moons that could be artificial space stations Mars used to be a moon to its now exploded primary which is now the Asteroid Belt Their Martian cities are so immense that New York City and Shanghai combined wouldn t be considered a nickel in a handful of change in comparison to them Jaredite leftovers are all over Earth if one knows when to look for them Book III details a few of their many wars as well as their final Civil War the first year or two which were nuclear Through their longevity they were able to develop their physics to the point to where they could control the weather as well as to weaponize its component parts And their final long prophesied death *Ancient Technology in Peru and Bolivia* David Hatcher Childress,2012-10-31 David Hatcher Childress popular Lost Cities author and star of the History Channel s long running show Ancient Aliens takes us to the mysterious ruins in the mountains of Peru and Bolivia in search of ancient technology and the secrets of megalith building In his new book packed with photos and diagrams Childress examines the amazing stonecutting at Puma Punku a site neighboring the ancient ruins of Tiwanaku near Lake Titicaca in Bolivia He looks at whether the so called Inca walls found in Cuzco and at other sites such as Sacsayhuaman Ollantaytambo and Machu Picchu were really made by the Incas The evidence seems to support the idea that they were actually constructed by a far older culture Childress examines the megalithic construction and underground chambers of Chavin in the Cordillera Blanca of Peru possibly the oldest megalithic site in South America He also speculates on the existence of a sunken city in Lake Titicaca and reveals new evidence that the Sumerians may have arrived in South America over 4 000 years ago Childress demonstrates that the use of keystone cuts with metal clamps poured into them to

secure megalithic construction was an advanced technology used all over the world from the Andes to Egypt Greece and Southeast Asia He maintains that only power tools could have made the intricate articulation and drill holes found in extremely hard granite and basalt blocks in Bolivia and Peru and that the megalith builders had to have had advanced methods for moving and stacking gigantic blocks of stone some weighing over 100 tons The incredible high tech world of South America is illuminated in the informative and breezy style for which Childress has always been known Chapters in the book include The Lost World of South America The Enigma of Ancient Technology Ancient Technology at Tiwanaku and Puma Punku The Sumerian Mining Complex at Tiwanaku Mysteries of Lake Titicaca and the Towers Ancient Technology in Cuzco The Megaliths of Ollantaytambo Did the Incas Build Machu Picchu and more **Ancient Technology** John W.

Egypt Christopher Dunn,2010-06-24 A unique study of the engineering and tools used to create Egyptian monuments Presents a stone by stone analysis of key Egyptian monuments including the statues of Ramses II and the tunnels of the Serapeum Reveals that highly refined tools and mega machines were used in ancient Egypt From the pyramids in the north to the temples in the south ancient artisans left their marks all over Egypt unique marks that reveal craftsmanship we would be hard pressed to duplicate today Drawing together the results of more than 30 years of research and nine field study journeys to Egypt Christopher Dunn presents a stunning stone by stone analysis of key Egyptian monuments including the statue of Ramses II at Luxor and the fallen crowns that lay at its feet His modern day engineering expertise provides a unique view into the sophisticated technology used to create these famous monuments in prehistoric times Using modern digital photography computer aided design software and metrology instruments Dunn exposes the extreme precision of these

monuments and the type of advanced manufacturing expertise necessary to produce them His computer analysis of the statues of Ramses II reveals that the left and right sides of the faces are precise mirror images of each other and his examination of the mysterious underground tunnels of the Serapeum illuminates the finest examples of precision engineering on the planet Providing never before seen evidence in the form of more than 280 photographs Dunn s research shows that while absent from the archaeological record highly refined tools techniques and even mega machines must have been used in ancient Egypt

Technology of the Gods David Hatcher Childress,2000 Technology of the Gods lays out the mind bending evidence that long lost civilizations had attained and even exceeded our modern level of advancement Westerners have been taught that humankind has progressed along a straight line path from the primitive past to the proficient present but the hard fast evidence literally written in stone proves that the ancients had technologies we cannot even replicate today
