Grief, Loss, and Treatment for Death Row Families Sandra Joy, 2013-12-05 The families of death row inmates are rarely considered in public discourse regarding the death penalty They have largely been forgotten and their pain has not been acknowledged by the rest of society These families experience a unique grief process as they are confronted with the loss of their loved one to death row and brace themselves for the possibility of an execution Death row families are disenfranchised from their grief by the surrounding community and their mental health needs exacerbated as they struggle in isolation with the ambiguous loss that comes with the fear that the state will kill their loved one Grief Loss and Treatment for Death Row Families describes the grief that families experience from the time of their loved one s arrest through his or her execution In each chapter Sandra Joy guides the reader through the grief process experienced by the families offering clinical interventions that can be used by

mental health professionals who are given the opportunity to work with these families at various stages of their grief The author conducted over seventy qualitative interviews with family members from Delaware who either currently have a loved one on death row or have survived the execution of their loved one Delaware was chosen because though it has a relatively small death row it is ranked third in the nation with its rate of per capita executions This book provides an in depth awareness of the grieving process of death row families as well as ways that professionals can intervene to assist them in healing With increased awareness and effective clinical treatment we can ensure that the families of death row inmates are forgotten no more

Eifert, 2004-05-01 Statistics suggests that as many as 2.5 percent of American women suffer from anorexia of these further research indicates that one in ten of these will die from the disorder This is the only book available that addresses the particular needs of anorexics with the techniques of acceptance and commitment therapy ACT a revolutionary new psychotherapy The authors of this book are pioneering researchers in the field of ACT with numerous research articles to their credit Despite ever widening media attention and public awareness of the problem American women continue to suffer from anorexia nervosa in greater numbers than ever before This severe psychophysiological condition characterized by an abnormal fear of becoming obese a persistent unwillingness to eat and severe compulsion to lose weight is particularly difficult to treat often because the victims are unwilling to seek help The Anorexia Workbook demonstrates that efforts to control and stop anorexia may do more harm than good Instead of focusing efforts on judging impulses associated with the disorder as bad or negative this approach encourages sufferers to mindfully observe these feelings without reacting to them in a self destructive way Guided by this more compassionate more receptive frame of mind the book coaches you to employ various acceptance based coping strategies Structured in a logical step by step progression of exercises the workbook first focuses on providing you with a new understanding of anorexia and the ways you might have already tried to control the

problem Then the book progresses through techniques that teach how to use mindfulness to deal with out of control thoughts and feelings how to identify choices that lead to better health and quality of life and how to redirect the energy formerly spent on weight loss into actions that will heal the body and mind Although this book is written specifically as self help for anorexia sufferers it includes a clear and informative chapter on when you need to seek professional treatment as well as advice on what to look for in a therapist
