here is rooted in the Golden Ratio the natural expansion of growth creativity and emotional connection Just as artworks find completion through the layering of colour light and shade so too do our relationships find form through the layering of presence vulnerability and time This is not a story of neat resolutions or perfect alignments It is a study of the attempt the brave imperfect often chaotic act of becoming of seeing and being seen It is about the art of living and loving without losing ourselves even when timing circumstance or human fallibility intervene I invite you to read this as you would view an unfinished painting sensing not only what is painted but what is felt beyond the frame
