Upsetting Composition Commonplaces Ian Barnard, 2014-07-15 In *Upsetting Composition Commonplaces* Ian Barnard argues that composition still retains the bulk of instructional practices that were used in the decades before poststructuralist theory discredited them While acknowledging that some of the foundational insights of poststructuralist theory can be difficult to translate to the classroom Barnard upends several especially intransigent tenets that continue to influence the teaching of writing and how students are encouraged to understand writing Using six major principles of writing classrooms and textbooks clarity intent voice ethnography audience and objectivity Barnard looks at the implications of poststructuralist theory for pedagogy While suggesting some evocative poststructuralist pedagogical practices the author focuses on diagnosing the fault lines of composition's refusal of poststructuralism rather than on providing solutions in the form of teaching templates Upsetting

Composition Commonplaces addresses the need to more effectively engage in poststructuralist concepts in composition in an accessible and engaging voice that will advance the conversation about relations between the theory and teaching of writing

New Directions in Print Culture Studies Jesse W. Schwartz, Daniel Worden, 2022-06-16 New Directions in Print Culture Studies features new methods and approaches to cultural and literary history that draw on periodicals print culture and material culture thus revising and rewriting what we think we know about the aesthetic cultural and social history of transnational America The unifying questions posed and answered in this book are methodological How can we make material archival objects meaningful How can we engage and contest dominant conceptions of aesthetic historical and literary periods How can we present archival material in ways that make it accessible to other scholars and students What theoretical commitments does a focus on material objects entail New Directions in Print Culture Studies brings together leading scholars to address the methodological historical and theoretical commitments that emerge from studying how periodicals books images and ideas circulated from the 19th century to the present Reaching beyond national boundaries the essays in this book focus on the different materials and archives we can use to rewrite literary history in ways that highlight not a canon of major literary works but instead the networks dialogues and tensions that define print cultures in various moments and movements
