Meyer, Christopher M.

Weaver, 2006-08-22 This extremely versatile handbook written for students and practitioners taps current treatment and assessment research to provide up-to-date coverage of emotional and behavioral disorders, major DSM-IV-TR diagnostic categories, MMPI-2 correlates, and other test response patterns and treatment options. Diagnostic concepts and observations are linked with specific assessment and test data for diagnostic categories; this is then integrated with recommended intervention procedures. In a single volume, the authors have synthesized an abundance of information and presented it in a manageable and accessible manner. Their extensive experience in clinical and forensic psychology, teaching, conducting research, interacting with clients, working in the criminal justice system, highly qualifies them to know and present the kind of practical information students and practitioners need. Additional outstanding features: emphasizes multimodal assessment and treatment; includes extensive discussions of clinical challenges such as suicidal clients, the criminal personality, deception, and malingering; offers bibliotherapy, reading assignments, and appropriate relaxation techniques for various types of clients; provides coverage of legal issues, competency, criminal responsibility, and civil commitment; presents useful tips on case preparation and professional practice in the office and the courtroom. *Conquer the Clutter* Elaine Birchall, Suzanne Cronkwright, 2019-10-01 How to take back your life when your things are taking over. Why does Cliff, a successful lawyer who regularly wins landmark cases, step over two-foot piles of paper whenever he opens his front door? Why do Joan and Paul ask Children's Services to take their three children instead of decluttering their home? Why does Lucinda feel intense pressure to hold onto her family's heirlooms even though she has no room for them? They have hoarding disorder, which an estimated 2% to 6% of the adult population worldwide experience. *Conquer the Clutter* offers hope to anyone affected by hoarding. Real-life vignettes combined with easy-to-use assessment and intervention tools support those who hoard and those who care about them. Written by Elaine Birchall, a social worker dedicated to helping people declutter and achieve long-term control over their belongings, the book provides an overview of hoarding, defining what it is and is not, explains the difference between clutter and hoarding, describes different types of hoarding in detail, including impulse shopping, closet hoarding, and animal hoarding, debunks myths about hoarding, and hoarders explore the effects that hoarding has on relationships, on work, and on physical and financial health. Presents a practical step-by-step plan of action for decluttering; contains dedicated advice from

individuals who have successfully overcome their hoarding disorder The most comprehensive work about hoarding on the market Conquer the Clutter discusses special populations who are not often singled out such as the disabled and the elderly and includes numerous worksheets to assist individuals in determining the scope of their hoarding disorder and tackling the problem Over 40 pages of additional resources are available online at jhupbooks.press.jhu.edu/title/conquer-clutter **The Addiction Treatment Planner** Robert R.
