Dialogism or Interconnectedness in the Work of Louise Erdrich Marta J. Lysik, 2017-05-11 This study portrays how Louise Erdrich s writing extends Bakhtin s concepts of dialogism and the novel through an investigation of a selection of her works as well as her practices of writing co writing re writing and reading novels Erdrich s hallmark dialogic literary style and practice encompasses writing a series of books re cycling protagonists narrators events themes and settings re writing previously published novels employing heteroglossia and polyglossia co authoring texts blogging about books translating different epistemologies for different audiences and spotlighting families as the main thematic concern in dialogue with her own parenting experiences as depicted in her memoirs She writes a growing series of novels compost pile like capitalizing on

former novels as well as adding new elements and new stories in the process Thus a dialogic intra textual microcosm emerges Erdrich suffuses her writing with an incessant quality of changing and becoming Her novels resist closure while protagonists return and demand attention and the author answers dialogically by penning new tales Erdrich s writing can be accessed because it concerns shared human experiences and relationships both their ambivalence and their beauty Erdrich includes instead of alienating sympathizes instead of judging which makes her an internationally acclaimed author with her work crossing topographies epistemologies and identities
