Global Meat Market, c. 1850 to c. 1930 Maria-Aparecida Lopes,2021-07-19 This book examines the meat provision system

of Rio de Janeiro from the 1850s to the 1930s Until the 1920s Rio was Brazil's economic hub main industrial city and prime consumer market Meat consumption was an indicator of living standards and a matter of public concern The work unveils that in the second half of the nineteenth century the city was well supplied with red meat Initially dwellers relied mostly on salted meat then in the latter decades of the 1800s two sets of changes upgraded fresh meat deliveries First ranching expansion and transportation innovation in southeast and central west Brazil guaranteed a continuous flow of cattle to Rio Second the municipal centralization of meat processing and distribution made its provision regular and predictable By the early twentieth century fresh meat replaced salted meat in the urban marketplace This study examines these developments in light of national and global developments in the livestock and meat industries
