sinking of the RMS Titanic One of the survivors of the sinking of the Titanic in April 1912 Beesley wrote a successful book about his experience *The Loss of the S S Titanic Its Story and its Lessons* June 1912 published just nine weeks after the disaster For her time Titanic was unsurpassed in luxury and opulence Although she was technologically advanced for the period on the night of 14 April 15 April 1912 the Titanic struck an iceberg and sank with great loss of life **The Loss of the S. S. Titanic: Its Story and Its Lessons** Lawrence Beesley, 2015-05-25 RMS Titanic was a British passenger liner that sank in the North Atlantic Ocean in the early morning of 15 April 1912 after colliding with an iceberg during her maiden voyage from Southampton UK to New York City US The sinking resulted in the loss of more than 1 500 passengers and crew making it one of the deadliest commercial peacetime maritime disasters in modern history The RMS Titanic the largest ship afloat at the time it entered service was the second of three Olympic class ocean liners operated by the White Star Line and was built by the Harland and Wolff shipyard in Belfast with Thomas Andrews as her naval architect Andrews was among those lost in the sinking On her maiden voyage she carried 2 224 passengers and crew Wikimedia Commons has media related to RMS Titanic Under the command of Edward Smith the ship s passengers included some of the wealthiest people in the world as well as hundreds of emigrants from Great Britain and Ireland Scandinavia and elsewhere throughout Europe seeking a new life in North America A wireless telegraph invented by Guglielmo Marconi and manned by operators Jack Phillips and Harold Bride was provided for the convenience of passengers as well as for operational use Although Titanic had advanced safety features such as watertight compartments and remotely activated watertight doors there were not enough lifeboats to accommodate all of those aboard due to outdated maritime safety regulations Titanic only carried enough lifeboats for 1 178 people slightly more than half of the number on board and one third her total capacity After leaving Southampton on 10 April 1912 Titanic called at Cherbourg in France and Queenstown now Cobh in Ireland before heading west to New York 2 On 14 April 1912 four days into the crossing and about 375 miles 600 km south of Newfoundland she hit an iceberg at 11 40 p m ship s time The collision caused the ship s hull plates to buckle inwards along her starboard side and opened five of her sixteen watertight compartments to the sea the ship gradually filled with water Meanwhile passengers and some crew members were evacuated in lifeboats many of which were launched only partly loaded A disproportionate number of men were left aboard because of a women and children first protocol followed by some of the officers loading the lifeboats 3 By 2 20 a m she broke apart and foundered with well over one thousand people still aboard Just under two hours after Titanic foundered the Cunard liner RMS Carpathia arrived on the scene of the sinking where she brought aboard an estimated 705 survivors The disaster was greeted with worldwide shock and outrage at the huge loss of life and the regulatory and operational failures that had led to it Public inquiries in Britain and the United States led to major improvements in maritime safety One of their most important legacies was the establishment in 1914 of the International Convention for the Safety of Life at Sea SOLAS which still governs maritime safety today Additionally several new wireless

regulations were passed around the world in an effort to learn from the many missteps in wireless communications which could have saved many more passengers 4 The wreck of Titanic remains on the seabed split in two and gradually disintegrating at a depth of 12 415 feet 3 784 m Since her discovery in 1985 thousands of artefacts have been recovered and put on display at museums around the world Titanic has become one of the most famous ships in history her memory kept alive by numerous books folk songs films exhibits and memorials

Beesley,2013-10 The Loss of the S S Titanic Its Story and its Lessons By Lawrence Beesley One of the Survivors The history of the R M S Titanic of the White Star Line is one of the most tragically short it is possible to conceive The world had waited expectantly for its launching and again for its sailing had read accounts of its tremendous size and its unexampled completeness and luxury had felt it a matter of the greatest satisfaction that such a comfortable and above all such a safe boat had been designed and built the unsinkable lifeboat and then in a moment to hear that it had gone to the bottom as if it had been the veriest tramp steamer of a few hundred tons and with it fifteen hundred passengers some of them known the world over The improbability of such a thing ever happening was what staggered humanity

Titanic: Its Story and Its Lessons. [With Plates.]*. Lawrence Beesley, 1929 **The Sinking of the Titanic** Lawrence Beesley, 2012-05-10 One of the survivors of the sinking of the Titanic in April 1912 Lawrence Beesley wrote a successful book about his experience The Loss of the SS Titanic June 1912 published just nine weeks after the disaster He saw two second class women who tried to get on a lifeboat who were told to go back to their own deck and that their lifeboats were waiting there At the time of Lifeboat No 13 s launching on the Boat Deck no women or children were in immediate sight but it seemed there was room for more As a result Beesley was ordered to jump into it just before it launched He managed to survive a subsequent incident where Lifeboat No 15 nearly came on top of No 13 A stoker managed to cut the ropes connecting the boat to the falls at the last minute and those in both boats emerged unhurt Beesley and the rest of the survivors were picked up by the RMS Carpathia early morning on April 15 During the filming of A Night to Remember 1958 Beesley famously gatecrashed the set during the sinking scene hoping to go down with the ship that time But he was spotted by the director Roy Ward Baker who vetoed this unscheduled appearance due to actors union rules These events are parodied in Julian Barnes novel A History of the World in 10 5 Chapters where Beesley makes a brief appearance as a fictional character Beesley was portrayed by actor David Warner in the 1979 dramatisation of the voyage and sinking S O S Titanic He is the grandfather of New York Times science editor Nicholas Wade *The Loss of the S.s. Titanic* , **The German Pirate: His Methods and Record** Ajax, 2021-05-19 In The German Pirate His Methods and Record Ajax meticulously explores the audacious exploits of German piracy during a tumultuous era in maritime history Through an engaging narrative interwoven with detailed accounts and vivid descriptions Ajax employs a blend of analytical prose and descriptive storytelling to illuminate the strategies motivations and socio political contexts that defined piracy in German waters The book stands out for its rigorous examination of primary sources and artifacts enriching the reader s understanding of not only the pirates methods but also the broader implications of their actions on European maritime trade and politics Ajax a seasoned historian with a focus on the maritime crimes of the 17th and 18th centuries draws from a rich tapestry of archival research and first hand accounts His deep fascination with the intersection of literature and history led him to examine piracy as not merely a criminal endeavor but also a reflection of national identity and cultural norms Ajax s rigorous academic background and passion for nautical history inform his insights making him a credible voice in this niche field The German Pirate His Methods and Record is an essential read for history enthusiasts scholars and anyone intrigued

by tales of adventure on the high seas Ajax's compelling blend of scholarship and storytelling ensures that readers will be captivated by the daring world of piracy prompting them to rethink the moral nuances of these maritime marauders **One Hundred and Sixty Minutes** William Elliott Hazelgrove, 2021-09-01 One hundred and sixty minutes That is all the time rescuers would have before the largest ship in the world slipped beneath the icy Atlantic There was amazing heroism and astounding incompetence against the backdrop of the most advanced ship in history sinking by inches with luminaries from all over the world It is a story of a network of wireless operators on land and sea who desperately sent messages back and forth across the dark frozen North Atlantic to mount a rescue mission More than twenty eight ships would be involved in the rescue of Titanic survivors along with four different countries At the heart of the rescue are two young Marconi operators Jack Phillips 25 and Harold Bride 22 tapping furiously and sending electromagnetic waves into the black night as the room they sat in slanted toward the icy depths and not stopping until the bone numbing water was around their ankles Then they plunged into the water after coordinating the largest rescue operation the maritime world had ever seen and thereby saving 710 people by their efforts The race to save the largest ship in the world from certain death would reveal both heroes and villains It would begin at 11 40 PM on April 14 when the iceberg was struck and would end at 2 20 AM April 15 when her lights blinked out and left 1500 people thrashing in 25 degree water Although the race to save Titanic survivors would stretch on beyond this most people in the water would die but the amazing thing is that of the 2229 people 710 did not and this was the success of the Titanic rescue effort We see the Titanic as a great tragedy but a third of the people were rescued and the only reason every man woman and child did not succumb to the cold depths is due to Jack Phillips and Harold McBride in an insulated telegraph room known as the Silent Room These two men tapping out CQD and SOS distress codes while the ship took on water at the rate of 400 tons per minute from a three hundred foot gash would inaugurate the most extensive rescue operation in maritime history using the cutting edge technology of the time wireless
