Love From The Big Screen To My Life Scene:

Chapters of My Life R. Michelle, 2010-03-11 *Chapters of My Life* is a poetic expression of the many phases of life through which the author R Michelle has traveled. Often referring to herself metaphorically as a butterfly with the stroke of a pen, she has captured the realities as well as the fantasies of transformation from the youthful larva through the restrictive cocoon into a brilliant, colorful, free creature. The words will drive you into a state of mesmerization. Come and observe the metamorphosis of one of God's wonderful exhilarating creations. There is certainly to be a word for you. Each piece is without question an original; however, they are not those of the author. All come from the benefactor, the source. Through this transformation, R Michelle has learned that she is the essence of the source. It is not one purchased nor one acquired through classroom lessons; that is, unless you consider living in this world to be the philosophical classroom. My gift is to encourage, motivate, remind, initiate whatever it is that someone else has momentarily lost sight of. My gift is to bless others. This is my gift. Through my gift, it is my prayer that you will utilize your gift for its purpose. Indulge yourself in the gift, but as you partake, do not neglect to get only your portion. You see, the gift in its entirety is not for any one. There may be only one line for you. It may be two or three poems. Or there may be an entire section or chapter for you. In My gift, you will find nourishment created specifically for you if you read with the Spirit, not your mind.

A Memoir of Love, Science, and Adventure- My life with Svante Wold Nouna Kettaneh, 2023-08-23

This book is the story of my life with Svante Wold. Svante was a brilliant Swedish scientist who started the field of Chemometrics: how to extract information from large datasets. We met at a conference in New Hampshire when Chemometrics was in its infancy and fell madly in love. Everything separated us. We lived in different countries, were from differing cultures, had established careers, and were in long-term relationships. But love and destiny won. We got married, lived together, worked together, and were never apart. We founded a company and succeeded in growing and expanding the field of Chemometrics to what it is today: a forever young discipline showing the capacity to adapt and solve new challenges in the Natural and Life Sciences. Simca, the software we started, has become the standard of Multivariate Analysis. Above all this
