Ergun, 2017-02-17 *Feminist Translation Studies Local and Transnational Perspectives* situates feminist translation as political activism Chapters highlight the multiple agendas and visions of feminist translation and the different political voices and cultural heritages through which it speaks across times and places addressing the question of how both literary and nonliterary discourses migrate and contribute to local and transnational processes of feminist knowledge building and political activism This collection does not pursue a narrow fixed definition of feminism that is based solely on Eurocentric or West centric gender politics rather *Feminist Translation Studies Local and Transnational Perspectives* seeks to expand our understanding of feminist action not only to include feminist translation as resistance against multiple forms of domination but also to rethink feminist translation through feminist theories and practices developed in different geohistorical and disciplinary contexts In so doing the collection expands the geopolitical sociocultural and historical scope of the field from different disciplinary perspectives pointing towards a more transnational interdisciplinary and overtly political conceptualization of translation studies **Power Play in Latin Love Elegy and its Multiple Forms of Continuity in**

Ovid's >Metamorphoses José Manuel Blanco Mayor, 2017-02-20 Conceived as a necessary reconsideration of the pristine elegiac question in Ovid's *Metamorphoses* this book intends to offer an analysis of the function of elegiac discourse within Ovid's magnum opus from the perspective of metapoetics To that end the author undertakes in the first section a close re-reading of some relevant passages of Latin love elegy From a prism that takes into account the characteristically elegiac multivocality the genre reveals itself as an agonistic discourse in which the poet dramatises his metaliterary power relation with the puella who is unveiled as the synthesis of the distinct sub products of his poetic activity Thereupon the author proceeds to scrutinise how elegiac elements are assimilated and transformed as they become integrated within the framework of Ovid's poem of changing forms Far from being a mere stylistic ornament the presence of an elegiac register in many erotic passages tells us about Ovid's stance towards love as a metapoetic trope By reworking elegiac tradition to the point of transforming it into a novum corpus the poet ultimately substantiates the mutability of generic categories *Essays*

Art and Love in Renaissance Italy Metropolitan Museum of Art (New York, N.Y.), Kimbell Art Museum, 2008 Many famous artworks of the Italian Renaissance were made to celebrate love marriage and family They were the pinnacles of a tradition dating from early in the era of commemorating betrothals marriages and the birth of children by commissioning extraordinary objects maiolica glassware jewels textiles paintings that were often also exchanged as gifts This volume is the first comprehensive survey of artworks arising from Renaissance rituals of love and marriage and makes a major contribution to our understanding of Renaissance art in its broader cultural context The impressive range of works gathered in these pages extends from birth trays painted in the early fifteenth century to large canvases on mythological themes that Titian painted in the mid 1500s Each work of art would have been recognized by contemporary viewers for its prescribed function within the private domestic domain
