Gomerys Blinders And Canadian Federalism Governance Series:

Gomery's Blinders and Canadian Federalism Ruth Hubbard, Gilles Paquet, 2007-02-08 In 2004 Paul Martin asked Justice John Gomery to lead a public inquiry into potential misspending in the federal Sponsorship Program a relatively small investment of taxpayers money to try to convince Quebecers of the benefits of Canadian federalism in the aftermath of the 1995 referendum on Quebec separation The Gomery inquiry chose to focus exclusively on the sordid details of the money laundering and paid no attention to the deeper causes and sources of the problem the dysfunctions of an existing centralized governing apparatus that is tearing the fabric of the country apart and the collusion of centralizing groups defending the status quo Published in English

Deep Cultural Diversity Gilles Paquet, 2008-04-22 Political commentator and public policy analyst Gilles Paquet examines the benefits and drawbacks of Canada's multiculturalism policy He rejects the current policy which perpetuates difference and articulates a model for Canadian transculturalism a more fluid understanding of multiculturalism based on the philosophy of cosmopolitanism which would strengthen moral contracts and encourage the social engagement of all Canadians Published in English

Revolution or Renaissance D. Paul Schafer, 2008-04-29 In *Revolution or Renaissance* D Paul Schafer subjects two of the most powerful forces in the world economics and culture to a detailed and historically sensitive analysis He argues that the economic age has produced a great deal of wealth and unleashed tremendous productive power however it is not capable of coming to grips with the problems threatening human and non human life on this planet After tracing the evolution of the economic age from the publication of Adam Smith's *The Wealth of Nations* in 1776 to the present he turns his attention to culture examining it both as a concept and as a reality What emerges is a portrait of the world system of the future where culture is the central focus of development According to Schafer making the transition from an economic age to a cultural age is imperative if global harmony environmental sustainability economic viability and human well being are to be achieved Published in English

The Case for Decentralized Federalism Ruth Hubbard, Gilles Paquet, 2011-01-17 The Case for Decentralized Federalism and its sister volume *The Case for Centralized Federalism* are the outcome of the Federalism Redux Project created to stimulate a serious and useful conversation on federalism in Canada They provide the vocabulary and arguments needed to articulate the case for a centralized or a decentralized Canadian federalism The Case for Decentralized Federalism brings together experts who believe decentralized federalism is the optimal arrangement for governing the contextual diversity and cultural pluralism in Canada Using different approaches they argue that by dividing the work of public governance among different levels of government it is easier to address the needs and aspirations of the diverse groups that make up Canada Published in English

The Case for Centralized Federalism Gordon DiGiacomo, Maryantonett Flumian, 2010-08-21 The Case for Centralized Federalism and its sister volume *The Case for Decentralized Federalism* are the outcome of the Federalism Redux Project created to stimulate a serious and useful conversation on federalism in Canada They provide the vocabulary and arguments

needed to articulate the case for a centralized or a decentralized Canadian federalism In The Case for Centralized Federalism an array of experts condemns the federal government's submissiveness in its dealings with the provinces and calls for a renewed federal assertiveness They argue that the federal government is best placed to create effective policy support democracy and respond to issues of national importance Published in English **Searching for Leadership** Patrice Dutil, 2008-08-02 Although the subject of leadership is a hot topic it has never attracted much attention in the public sector Searching for Leadership is the first book to examine the evolving role and leadership of the highest ranking public servant in Ottawa or in any of Canada's Provinces and Territories the Secretary to Cabinet or the Clerk Arguing that the leadership role of the Secretary to Cabinet must be appreciated and understood in light of modern management practices and the centralization of administrative practices the contributors to this volume present a mixture of approaches to the position literature reviews structural approaches and biographical case studies of influential Secretaries to the Cabinet Analyzing the role of Secretaries to the Cabinet in Ottawa as well as in Alberta Saskatchewan Quebec and Ontario the contributors detail the roles key functions and impact of these highly influential public servants highlighting the ways in which the leadership skills of Secretaries to the Cabinet have changed and responded to change An important contribution to understanding Canadian governance and public management Searching for Leadership is essential reading for scholars and students in political science history public administration and management as well as public servants **Intelligent Governance** Gilles Paquet, Christopher Wilson, 2016-06-12 Striking the right fit between resources processes and outcomes in complex environments where different groups have something to contribute towards joint outcomes even though they partake in joint operations in the pursuit of their own objectives This is what intelligent governance is all about It is the practical application of an evolving worldview that is a less conflictive more intelligent more cooperative and a wiser mode of human coordination This short book proposes some guideposts for intelligent governance It does not put forward a rigid blueprint or a recipe that could mechanically and blindly be followed but a prototype for a process of inquiry seeking to help organizations find a way forward through innovation and value adding some general indications about the most toxic pitfalls likely to materialize mental prisons lack of mindfulness etc and comments about the most promising opportunities or initiatives likely to nudge the coordinating inquiries into successful directions *Building Bridges* Claude Rocan, 2022-08-10 The case studies contained in this book show real life examples of complex problems being addressed through collaboration The problems confronting modern society are complex and do not lend themselves to simple solutions or linear decision making They require the involvement of many stakeholders This is often brought about by networks which bring together a multitude of players in the search for solutions to public policy issues This can be challenging as differing viewpoints and personalities and often conflicting interests need to be acknowledged and reconciled Yet without the involvement of all interested parties solutions that emerge will likely be partial distorted and short lived The cases span a broad spectrum including issues of

poverty reduction criminal gang reduction environmental reparation economic development for First Nations building age friendly communities and co management of fisheries Crippling Epistemologies and Governance Failures Gilles

Paquet,2009-04-18 In Crippling Epistemologies and Governance Failures Gilles Paquet criticizes the prevailing practices of the social sciences on the basis of their inadequate concepts of knowledge evidence and inquiry concepts he claims have become methodological mental prisons Paquet describes the prevailing policy development process in Canada in terms of its weak information infrastructure poor accountability and inflexible organization design In contrast he suggests that social science and public policy should promote forms of serious play that would allow organizations to experiment with new structures Paquet engages with numerous foundationalist programs in the social sciences in order to show their inadequacy and suggests important and unexplored directions in policy areas as diverse as education science health intergovernmental and foreign policy He closes the work with a plea for experimentalism in academic research policy development and organization design Published in English **The Tainted-Blood Tragedy in Canada** Gilles Paquet,Roger A.

Perrault,2022-08-10 Canada experienced a tainted blood crisis in the latter part of the 20th century It left a number of Canadians dead and a large number incapacitated or seriously handicapped It has been established by the court that there was no criminal negligence at the source of this event but there were most certainly governance failures This latter aspect of the tragedy has not received the attention it deserves These governance failures have transformed the crisis into a tragedy and the tragedy generated a miscarriage of justice if justice delayed for decades may be regarded as justice denied This book has been written by a specialist on governance and a medical doctor and scientist who managed the Canadian blood transfusion system for 17 years It challenges the conventional wisdom that underpinned the four ill founded accusations against a few persons levied by interest groups the media and the Office of the Solicitor General of Ontario and it argues that the tragedy was the result of a cascade of pathologies of governance A systemic reconstruction of the tragedy is proposed the administrative processes that we argue were responsible for the pathologies of governance are exposed and suggestions are made to neutralize such malefits in the future The full text of the judgment and reasons provided by Justice Benotto when one of the ill founded accusations was brought to court is enclosed This led the Crown to drop the other three ill founded accusations A postface underlines the lack of critical thinking that has allowed such a tragedy to follow its course Gilles

Paquet Caroline Andrew,Ruth Hubbard,Jeffrey Roy,2010-10-27 This volume explores and contextualizes the contributions of Gilles Paquet as a social scientist A quintessential public intellectual Gilles Paquet s long and multifaceted career has shown him to be a thinker of significant power and creativity This self described homo hereticus always critical and sometimes controversial has influenced scholars and policy makers in Canada and around the globe The contributors reveal how his assessments of economics politics public administration and education have stirred their minds and helped them make sense of the world around them The volume also provides comments on Paquet s vision of governance touching on concepts of

which he has made extensive use meso analysis social learning and moral contracts Published in English Scheming Virtuously Gilles Paquet,2022-08-10 Scheming Virtuously The Road to Collaborative Governance is an invitation to subversion but also a somewhat personal account of the displacement of the dominant governing regime Big G centralized government by small g collaborative governance in a world where power resources and information are widely distributed In this new world the citizen s burden of office is clear to be a producer of governance Scheming virtuously is the order of the day active engagement imaginative problem reframing astute organizational design and effective action within the bounds of the appreciative systems in good currency and beyond **Driving the Fake Out of Public Administration** Ruth Hubbard,Gilles Paquet,2022-08-10 Much of the waste in public administration is ascribable to the displacement of the primary concern for performance and coordination by a primary concern for redistribution In each sphere of activities it has led to unreasonable rules inspired by egalitarianism that have triggered permanent allocational malefits The failure to confront the progressivist ethos and culture has rendered any action on the managerial front ineffective First the authors underscore the seemingly unanimous diagnosis of waste and dysfunctions in Canada s federal public service and show that efforts to correct the situation have failed This failure is ascribable to a fundamental incapacity to deal concurrently with the ill advised managerial decisions of governments and the perverse progressivist philosophy inspiring them Second an MRI of the human resource HR regimes has been sketched as a guide to the detoxing and modernization of the HR regimes It was used to spell out some guidelines for the modification of management structures and competencies and to probe the cultural underground of moral contracts that would need to underpin the new arrangements **The Evolving Physiology of Government** O. P. Dwivedi,Byron M. Sheldrick,Tim A. Mau ,2009-06-20 Canadian public administration has provided a rich ground for examining the changing nature of the state Currents of political change have rippled through the administration of the public sector often producing significant alterations in our understanding of how best to organize and administer public services This volume brings together some of the leading Canadian and international scholars of public administration to reflect on these changes and their significance Providing a historical perspective on public administration in Canada the volume examines the shift from a traditional model of administration to newer forms such as new public management and governance and explores current debates and the place of Canadian public administration within a broader comparative perspective **A Future for Economics** Christopher Maule,2022-08-10 Economics is a discipline fundamentally concerned with effective coordination In that way its main concerns are very close to those of governance Economics like governance has evolved considerably over the last half century This book is a very modest attempt at gauging the relative importance of this tsunami and the way in which it might indicate what will be its future A Future for Economics proposes the reflections on this general theme by eight senior members of the economics profession who have all taught at some time in the Department of Economics at Carleton University in Ottawa a department that has always been known for its intellectual temerity and for

its interest in extending the scope of economics beyond its traditional boundaries The Carleton sample of economists who share their views here have practiced in different sub fields of economics and have chosen to articulate their views and experiences in very different ways But their collective experience reflects a broad exposure to the ways in which the discipline has evolved both in academic circles and in the various organizations and institutions where they have practiced their profession in Canada and abroad

Two Cheers for Minority Government Peter H. Russell, 2023-11-01 *Two Cheers for Minority Government* presents a concise accessible analysis of the prevalence of minority governments in Canada Using the Canadian case to reflect on the processes and procedures of the parliamentary system Peter H Russell explores the tendency for people in parliamentary government to prefer elections which result in one party getting a margin of seats Russell aims to explain why a minority government is not only a likely outcome of parliamentary elections in Canada but is also for most the best possible outcome He argues that the best result of parliamentary actions is for no party to end up with a majority of seats in the lower house This makes for government that is more accountable to the people The new edition reveals how the increasing frequency of parliamentary elections that do not result in majority governments is a positive development for democracy Ultimately *Two Cheers for Minority Government* aims to help both citizens and politicians understand and make the most of the opportunities presented by minority governments

Life, Fish and Mangroves Melissa Marschke, 2012-01-28 In *Life Fish and Mangroves* Melissa Marschke explores the potential of resource governance offering a case study of resource dependent village life Following six households and one village based institution in coastal Cambodia over a twelve year period Marschke reveals the opportunities and constraints facing villagers and illustrates why local resource management practices remain delicate even with a sustained effort She highlights how government and business interests in community based management and resource exploitation combine to produce a complex highly uncertain dynamic With this instructive study she demonstrates that in spite of a significant effort spanning many years and engaging many players resource governance remains fragile and coastal livelihoods in Cambodia remain precarious

Defending a Contested Ideal Luc Juillet, Ken Rasmussen, 2008-09-13 In 1908 after decades of struggling with a public administration undermined by systemic patronage the Canadian parliament decided that public servants would be selected on the basis of merit through a system administered by an independent agency the Public Service Commission of Canada This history celebrating the 100th anniversary of the Commission recounts its unique contribution to the development of an independent public service which has become a pillar of Canadian parliamentary democracy Published in English

The Black Hole of Public Administration Ruth Hubbard, Gilles Paquet, 2010-11-15 A provocative reimagining of the Canadian public service Public administration in Canada needs to change A handful of scholars across Canada have been sounding the alarm for years but to no avail Talented young bureaucrats have been joining the public service with fresh ideas capable of creating real change but the black hole consumes all In *The Black Hole of Public Administration* experienced public servant Ruth Hubbard and public

administration iconoclast Gilles Paquet sound a wake up call to the federal public service They lament the lack of serious play going on in Canada s public administration today and map some possible escape plans They look to a more participatory governance model open source governing or small g governance as a way to liberate our public service from antiquated styles and systems of governing In their recognizably rebellious style Hubbard and Paquet demand that public administration scholars and senior level bureaucrats pull their heads out of the sand and confront the problems of the current system and develop a new system that can address the needs of Canada today Published in English The Return of Ethics and Spirituality in Global Development Mahmoud Masaeli,Rico Sneller,2020-06-02 The theory of modernization basically reduces the meaning of development to economic growth often measured by Growth Domestic Product of the country or overall purchase power parity of the nation This approach ignores the variety of perspectives on development hence excludes the role of culture identity and spirituality as social determinants of good development More importantly modernization theory which informs the mainstream view on development ignores the structural causes of underdevelopment including colonial heritage or the current unbridled capitalism in many societies Against reductionist views of development fundamental questions are raised about the theory and programming of development From what perspective is the conception of development perceived Who should decide and depict development goals What kind of development could result in desirable changes Is it morally desirable to dictate an exclusively Western understanding of development to others Is there any link between development and a right of nations to self determination Who is morally accountable for global inequality or bad development The novelty of this book lies in its multidisciplinary approach in exploring the role of ethics and spirituality as the curing alternates for the gamut of ills which originate in global inequality All authors are academics based in a variety of countries and specialize in questions concerning development and spirituality
