Luciani's progressive views of issues of his time, the crises in his personal and priestly life, his discomfort with the spotlight and his anxiety about succeeding the popular Pope Paul VI, the relative simplicity of his inauguration as pope and the unprecedented power he wielded on those with whom he came into contact both personally and through the mass media. Above all, Guernon attempts to capture the pope's mysterious ability to engender love among people of all faiths and nonbelievers too with his inimitable humility and almost divine smile. A striking example of his influence came from punk rocker Patti Smith who was so enamored of Luciani that she wrote a song about the pope and dedicated her 1979 album *Wave* to him. Pope John Paul I's impact on the world during his 33-day pontificate was simultaneously profound and perplexing and until now underappreciated. In little more than a month, the Luciani dazzled people of all ages, races, and nations while modernizing the papacy and establishing an ambitious agenda for promoting peace and dialogue among all peoples, a program subsequently carried out by his successors, particularly Pope Francis. And in fact, Pope Francis established the Vatican Pope John Paul I Foundation in memory of his beloved mentor. Never has a world leader accomplished so much in so little time.

The Crystallizing Teacher Craig Wood, 2024-05-31 This book advocates for teacher professional development done differently. The author introduces a process described as crystallizing conscientization, which restores agency to teachers. Looking beyond incremental improvements in teacher micro skills promoted by neo-managerial approaches to professional development, the book considers the wider impact of teachers' personal, professional, and political identities on their work. This critical reflective practice combines crystallization as method with Freirean principles of conscientization, asking questions that reveal the impact of whiteness in schools and the role that education performs in replicating whiteness and perpetuating injustice. The book will appeal to academics in the diverse fields of sociology of education, critical race theory, critical whiteness studies, curriculum and pedagogy, and teachers' work, as well as providers of initial teacher education programs and pre-service teachers.
