The book charts the vital intersections between theatre aesthetic theory and visual elements in his work that have been left largely unexplored. Rather than following traditional genre-bound critical approaches, this book focuses on the intermediality of individual works, the corpus as a whole, and their connections to a wide array of historical and contemporary artists, writers, photographers, film, theatre, and museum practitioners. The book is beautifully illustrated with many never-before-seen images from Strindberg's work and includes contributions from actress Liv Ullmann, director Robert Wilson, and curator and museum director Daniel Birnbaum.
